

THE CIRCLEVILLE HERALD

WEATHER

Fair, slightly cooler tonight. Saturday fair, slowly rising temperature.

FIFTIETH YEAR. NUMBER 194

CIRCLEVILLE, OHIO, FRIDAY, AUGUST 18, 1933

THREE CENTS

ENGINEERS TO COMPLETE SURVEY IN SIXTY DAYS

Contracting to complete their survey of the city's electrical and water needs within 60 days, Fossdick and Hilmer, consulting engineers, were preparing to begin today. The contract was signed by O. E. Hilmer, member of the firm, by A. J. Lyle, service director, by Paul E. Adkins, city auditor, and by Miss Lillian Young, city auditor, who certified that \$2,350, the engineering firm's guarantee, is in the city treasury.

Appointment of Fossdick and Hilmer was approved by city council Wednesday evening.

After the usual preliminaries which accompany any contract, the following items are listed in the agreement between the engineers and the city:

1. That the said Fossdick and Hilmer, under direction of the city service director, shall devote their services in making a complete survey and careful study of the present public and private electric loads and rates and the present public and private water consumption and rates, and advise the city through its proper officials whether or not the present rates are just, and if not what reasonable electric and water rates would be.
2. That the said Fossdick and Hilmer shall carefully and completely survey and determine whether or not a municipally owned electric generating plant and water works is feasible, and what the proper locations of such a plant would be.
3. That Fossdick and Hilmer

shall completely survey the present electrical distributing system and water distribution system to determine whether any portions of these systems can be used with a municipally owned plant, and if not what would be required in the way of new electric and water distributing systems.

4. That Fossdick and Hilmer shall prepare a block plan covering the electric generating and water works plant, showing the building and major equipment required, and prepare outlined plans in connection with the distributing system.
5. That Fossdick and Hilmer shall furnish estimates covering construction costs and in addition set-ups giving the approximate operating costs and indicating at what rates the municipality could supply electric current and water.

in the event the city elect to build a municipal plant or plants.

6. That Fossdick and Hilmer shall present these various matters in a manner which will enable the city to intelligently deal with both the Southern Ohio Electric Co. and the Ohio Water Service Co., it being understood that either Mr. Fossdick or Mr. Hilmer shall sit in, be present and advise with council at such meetings and when requested, such services being limited to three major meetings, six meetings in all. That Fossdick and Hilmer shall make such preliminary report on the two surveys, both water and light, within 60 days from the date of the contract.
7. The City of Circleville shall furnish Fossdick and Hilmer with a map of the city and either furnish

or provide them access to a map showing the distribution system with pipe sizes, and shall further furnish them or provide them access to accurate records of the amount of water used by the consumers and the revenue going to the water company.

8. In consideration for the services performed by Fossdick and Hilmer, engineers, the city shall pay \$2,350, payable as follows: \$1,500 upon completion of the preliminary studies and estimates, and upon the submission to the service director of plans in draft form; the balance shall be paid upon delivery of the complete report covering the complete study of both water and electricity, together with the final block plans and estimates of cost. Both of the last above named items shall be paid by the city auditor when

presented with proper vouchers approved by the service director, and the said director shall approve vouchers for the last named item of \$850 as the work progresses and he shall see fit.

It is further agreed that if the city so determines and requires, a further contract with the city to Fossdick and Hilmer shall execute a further complete, accurate and detailed plans and specifications covering either the electric generating plant or the water works plant, or a combined electric generating and water works plant, as may be determined, together with accurate detailed plans and specifications for the distributing system, so as to afford contractors all necessary information for bidding and for the satisfactory performance of the necessary work for

the purposes above stated, and will superintend the construction work covered by the plans and specifications and inspect the materials used.

If required to perform said additional work, Fossdick and Hilmer shall receive and the city shall pay a sum equal to four per cent of the actual cost of the new installation when final plans and specifications are completed, and an additional two per cent to cover superintendence of the construction work and inspection of the materials used; making a total of six per cent.

It is further agreed by Fossdick and Hilmer that of the sum of \$2,350 paid them under the contract, \$1,570 shall be deducted and set off as a credit on the sum to be paid them on the subsequent contract in the event such contract is entered into.

The DAILY WASHINGTON MERRY-GO-ROUND

By **DREW PEARSON and ROBERT S. ALLEN**

Moley May Head "An American Scotland Yard" of Amalgamated Sleuths

WASHINGTON—Professor Moley, transferred to the Justice Department, is no longer a fish out of water. It looks as if some big things would come from his stay there, one of them being the organization of an American Scotland Yard, the other being the elimination of J. Edgar Hoover, Chief of the Bureau of Investigation.

The fates have been extremely kind to Super-Dick Hoover. Years of sleuthing against so-called radicals in Congress had heaped up untold resentment against him; when Senator Tom Walsh was appointed Attorney General he said one of his first acts would be Hoover's demise.

Walsh died just before he was to take office.

His successor, Homer S. Cummings, also selected a man to replace Hoover. He was Walter Foster, agent of the Bureau of Investigation in Pittsburgh.

Foster died after he was selected.

Now Moley is talking of a complete re-organization of all government espionage work, in which Hoover probably will be squeezed out of the picture.

It is not certain yet whether Moley wants less espionage. But he has noted the obvious fact that the government has several thousand desks lurking around corners all over the country, all working for different bureaus. And he wants to amalgamate them.

For instance the Bureau of investigation has 710 desks; Post Office Inspection about 1,000; Internal Revenue 355; the Interior Department 200; the Prohibition Bureau more than 800; the Treasury 145.

Moley would put these all under one direction—a super Scotland Yard—probably bigger and better government espionage. Perhaps this is the real reason Moley's telephone is being tapped.

Strange Bird

General Johnson has a keen sense of humor, but this is one story his aides are keeping from him. They are just a little doubtful as to how he might take it.

The other day a woman marched briskly into the NRA office, and asked to see the Executive Administrator. Asked the purpose of her call, she replied as follows:

"I just wanted to reassure him that although he bore a resemblance to Hoover, he acted like our great President Roosevelt."

narchist to Ambassador

When Orestes Ferrara, Macho's Secretary of State, jumped to a bullet-pierced airplane and escaped from a mob which tore his baggage to shreds, Cuba sent to exile one of the grandest adventurers in modern history.

Three decades before, the same Ferrara had landed in Cuba under really exciting circumstances. Brought from the University of Pisa as an anarchist, he had right to free Crete from the Turks, then had come to New York to teach bomb-throwing to labor revolutionaries.

He joined a filibustering expedition to Cuba, twice failed to land, was finally succeeded, fought through the Spanish American war as a colonel, and emerged at age 22 a full-fledged governor of a province.

From that date until he escaped last week, Ferrara was one of the wags of Cuba. The one-time anarchist became fat, healthy and conservative. He died millions on sugar, bought a newspaper, fought 14 duels, became an ambassador to the United States. As such he was one of the most popular diplomats in Washington. He was the only one in the Diplomatic Corps who did not consume his own Bacardi cocktails, vodka, and hors d'oeuvres, two platters of spaghetti.

DESPONDENT, AGED WOMAN IS SUICIDE

TRIO INJURED AS CAR TURNS OVER

Three persons suffered painful injuries about 11 p. m. Thursday when the automobile driven by A. C. Post, 2223 Valmer-ave, Columbus, turned over on the Scioto Trail, 100 feet south of the Twin Elms at South Bloomfield.

Mr. Post was driving north. He suffered severe leg lacerations and Mrs. Post received a fractured right ankle. Another woman, whose name was not learned, was cut and bruised.

All three persons were taken to White Cross hospital, Columbus, in the E. F. Schlegel ambulance, for treatment.

BUS, AUTO HIT, TWO INJURED

Members of Cuban All-Stars Baseball Team In Thursday Accident.

Fourteen members of the Cuban All-Stars baseball team of Tarrytown, N. Y., enroute to Columbus after playing at Oak Hill, escaped serious injury about 8 p. m. Thursday when the bus in which they were riding collided with a Chevrolet coupe on the Scioto Trail, about 100 yards across the Pickaway-Ross line in Ross-co, almost completely demolishing the bus.

James Thompson, 20, of Chicago, and Ramiro Ramirez, 22, of Flint, Michigan, were treated at Flint Hospital for cuts and bruises they suffered in the accident. They were the only occupants of the bus who required medical aid. Occupants of the Chevrolet, whose names were not learned, also escaped injury.

The accident is said to have occurred when the bus, coming north, and the Chevrolet going south, sideswiped. Both vehicles were in the ditch.

The baseball team travels throughout the country and plays games along the route. It had completed a game at Oak Hill, Jackson-co, and members of the team were enroute to Columbus to spend the night when the accident occurred.

The two injured men were brought to the hospital by a passing motorist. Members of the team abandoned the demolished bus and went to Columbus where they expected to complete their plans before leaving for another destination.

LANCASTER POST OFFICE APPROVED

LANCASTER, Aug. 18.—The public works administration at Washington, today, had approved the \$76,500 post office project for this city. This was among the 29 building projects in 22 states which were approved.

RULING MAY HALT OHIO SUSPENSION OF BEER PERMITS

COLUMBUS, Aug. 18.—The Ohio liquor control commission is without legal right to suspend beer licenses, according to a ruling which had been handed down here today by Judge R. King in Franklin-co common pleas court.

The commission has the power only to revoke or rescind licenses, Judge King held.

Judge King's ruling was handed down in the case of Edith M. Madras vs. Mt. Vernon to enjoin the commission from suspending her beer license.

Named Deputy

GEORGE BARNES, youthful Democrat, who has been named deputy to the new clerk of courts, A. L. 'Dick' Wilder.

A cut of Mr. Wilder was not available.

JOHNSON HITS FORD'S STAND

Talks As Code Hearing Opens; Regrets All Companies Not Included.

WASHINGTON, Aug. 18.—Henry Ford's failure to come in with the other major automobile companies under a code of fair competition was indirectly criticized by Hugh S. Johnson, National Recovery administrator, when he appeared unexpectedly today to open the public hearing on the automobile code.

"It is a matter of regret," Johnson said, "that the industrial code does not contain 100 per cent of the industry. No exceptions can be made whether the manufacture is large or small."

CLEVELAND, Aug. 18.—NRA pledges from employers topped the 100,000 mark today.

To an Akron beauty shop went the distinction of sending in the pledge No. 100,000. Owners of the beauty shop parlor were not advised of the glory that was theirs.

"We're too busy," an attaché of the Ohio NRA headquarters said. "You tell them."

"We draw to a close the president's recovery program," Johnson continued, "soon the Blue Eagle will be spreading over every business organization in this country including the great industry. It is highly appropriate that this industry be among the first to approve a code. It will be the first and most important beneficiary of the recovery because this nation, which has been educated to go on wheels has a huge desire to replace obsolete motor vehicles which it has not been able to do during the long period of depression."

Local NRA Seeks Consumer Insignia

Workers in Circleville's NRA campaign were marking time today awaiting instructions as to procedure to place every resident of the city under the 'Blue Eagle'.

Durward Dowden, president of the Chamber of Commerce, has written a number of letters to the Cleveland office but, apparently swamped there, he has not received an answer to any of them. 'Blue Eagle' consumers' insignia is being sought for distribution to citizens of the city who promise to deal with merchants who exhibit and who are operating under the recovery administration plans.

BOULAY NAMED

WASHINGTON, Aug. 18.—Appointment of L. A. Boulay of Columbus, to be state engineer for Ohio under the Public Works program was announced here today by Administrator Harold L. Ickes.

BARNES NAMED ASSISTANT TO COUNTY CLERK

Appointment of Deputy Made Shortly After Wilder is Selected TO APPROVE BOND

'Dark Horse' Successful Over 32 Others

Arthur L. 'Dick' Wilder, W. Union-st, was preparing to take over the clerk's office today after his appointment Thursday afternoon by the county commissioners. He succeeds Ferd M. Pickens, who has resigned to become chief counsel for the Columbus branch of the Home Owners' Loan corporation.

Shortly after Mr. Wilder's appointment was announced, it was reported that George Barnes, son of City Councilman and Mrs. Tull S. Barnes, S. Court-st, had been named deputy. He will succeed Mrs. Ruth Pickens, wife of the former clerk.

As soon as Mr. Wilder's bond of \$10,000 is approved he will take over the reins of the office. Mrs. Pickens is remaining for a few days to show the new clerk and his deputy the 'ins and outs' of the office and its operation.

SERVE UNTIL 1935

The new clerk will serve the unexpired term of Mr. Pickens. He will be in office until Jan. 1, 1935.

Mr. Wilder's appointment came as a surprise to many persons. He was a 'dark horse' having never been mentioned as a candidate for the job. When the first applicants were announced Mr. Wilder's name was not among the names. He filed later.

One of the commissioners explained how Mr. Wilder was successful in his bid for the job. "I took the list of the 33 applicants through the city and parts of the county showing it to prominent people. I'll venture to say out of every 25 persons I talked to, 22 selected Mr. Wilder as the applicant best fitted for the office. We (the commissioners) did not act alone upon our own judgment but upon the wishes of a large number of influential residents of the city."

BARNES QUALIFIED

Mr. Barnes' appointment is pleasing to many. He is well fitted for the office graduating from the local high school and having attended Ohio State university for a short time. He was a candidate for the Democratic nomination for county recorder against Mary G. Morris and a large field of other candidates and finished second only to Mrs. Morris. He should prove a valuable assistant to Mr. Wilder.

MRS. ROOSEVELT IN COAL FIELDS

MORGANTOWN, W. Va., Aug. 18.—Traveling incognito in a battered old sedan and wearing plain clothes, Mrs. Franklin D. Roosevelt, wife of the President, was located here today—in the midst of a private tour of the West Virginia coal fields.

Mrs. Roosevelt arrived here Wednesday night, accompanied only by Miss Lorena Hickok, of Washington. She asked that her visit be kept a secret so that her tour of the mines might be carried out unhampered by publicity and crowds.

She was expected to leave here this morning. She was to drive back to Washington.

HOSPITAL NEWS

Mrs. Elizabeth Knowles, of Williamsport, who underwent a major operation at the hospital, was returned home Friday.

Jack Briscoe, 13, Earl Glenn, 9, and Pearl Clark, 6, of the Childs Home, who underwent tonsilectomies at the hospital Thursday, were discharged Friday.

LONE SURVIVOR IN POISONINGS

Three-year-old Clyde Colley, son of Alvin Colley, of Akron, O., is shown after surviving the poisoning in which his father, mother and two brothers died following a picnic dinner near Malvern, Ark. The boy, only member of his family still living, told police that Mark H. Shank, Akron lawyer, "put something in our grape juice."

Shank, pictured at Malvern after he was captured by bloodhounds while fleeing from the Colley automobile which crashed into a fence as the poison took effect, assertedly confessed to the plot, because, he said, Colley "knew too much" about him.

HOUSE READY TO VOTE TAX

Reduction of Beer Cap Tax Seen; Nine Millions Must Be Raised.

COLUMBUS, Aug. 18.—The Ohio House of Representatives—traveling at top speed—was scheduled to vote today on a "painless" tax program designed to raise \$9,000,000 for poor relief by reducing the 2-cent beer tax to one cent, and levying taxes on soft drinks costing over 5 cents, amusement prices above 15 cents, home-brewing supplies, and cosmetics.

Although approved by the special tax committee in record time last night during the second day of the legislature's special session, the "painless" program faced serious threats of delay in the Senate, where Republicans may "sound out" their constituents.

Called "painless" by its sponsors because it extends present taxes and adds soft drink and home-brew supply taxes without making drastic revisions in the revenue-raising system, the program is covered in three bills which, as amended, provide the following taxes:

1. A one-cent tax on bottled beer and all other bottled beverages retailing for more than 5 cents per bottle; and an increase in the present \$1.05 tax on bulk beer to \$1.50.
2. A one-cent tax on every 10 cents, or fraction, of amusement admission fees of 16 cents or more; to expire July 1, 1936.
3. A tax of 10 cents a pound or gallon on malt, malt syrup or brewer's wort.
4. Re-enactment of the present 10 per cent cosmetic tax now scheduled to expire March 31, 1936, to July 1, 1936.

PRISON DELIVERY PLOT IS SUSPECTED

DENVER, Aug. 18.—Fears and rumors that led to precautions of police in placing armed guards about the city jail and netting over the jail windows were not entirely unfounded, authorities revealed today.

U. S. PLANNING REDUCTION IN HOG TONNAGE

Gigantic Plan Outlined by Secretary Wallace at Chicago Today

POOR TO BE AIDED

Bonus of \$4 to Be Paid for Each Sow

CHICAGO, Aug. 18.—A gigantic plan to reduce hog tonnage during the 1933-34 marketing season by 1,800,000,000 pounds live weight was announced in detail at a Century of Progress coliseum today by Secretary of Agriculture Wallace.

The plan involves governmental purchase of 1,000,000 sows, soon to farrow, together with 4,000,000 pigs ranging in weight from 25 up to 100 pounds.

They will be slaughtered under contract between the farm adjustment administration and the packing houses. A major part of the meat will be turned over to Henry L. Hopkins, federal relief administrator, for distribution to the poor.

A processing tax on live hogs and hog products, effective about Oct. 1, will be levied to raise the \$55,000,000 needed for the program.

FIGURE UNCERTAIN

"A tax of considerably less than a cent a pound would accomplish this purpose but it is impossible at the moment to state the figure with any exactness," said Wallace. "It is necessary the program go into effect at once. I hope we can announce its inauguration in a few days. By Oct. 1, the goal should be reached."

Wallace explained that a bonus of \$4 per head will be paid for the sows, in addition to the market price; while six to nine and a half cents per pound will be paid for the pigs. Prices for the latter will be graduated according to weight, with 25-pound hogs bringing the highest price per pound.

The hog reduction plan, purely an emergency measure, was formulated by farmers at a general meeting held in Des Moines, with all the hog growing states represented. Commission men and packers have agreed to cooperate in carrying it out.

REMOVE HUGE TOTAL

"The government purchases will remove from the fall and winter markets from 600,000,000 to 700,000,000 pounds of live pork," Wallace declared.

"The total reduction in tonnage for the 1933-34 marketing season may amount to 1,800,000,000 pounds of hogs, live weight."

"That total is about 16 per cent of the hog tonnage normally marketed. If past experience is any guide, a reduction of 15 or 16 per cent in market supplies should increase the hog prices for this season by 25 to 30 per cent."

METZGER ESTATE

Grandchildren, Mrs. Rector To Receive Bequests Under Will of Ross-Co Man.

Several Pickaway countians are given bequests in the last will and testament of the late Charles Metzger, North Union-twp, Ross-co, according to the document filed in probate court, Chillicothe.

Bequests include \$2,000 to a son, Edward Metzger; \$500 each to the grandsons, Otis, Forest, Harry and Rufus Short; \$1,000 to a granddaughter, Mary Short; \$6,500 each to the two sons, Will and Ira Metzger and \$6,000 to the daughter, Lizzie Rector, wife of Edward Rector, Saltcreek-twp.

The residue of the estate is to be shared in five equal parts by Edward, Ira and Will Metzger, Lizzie Rector and the children of Barbara Short.

BULLDOGS WIN 14 TO 2 FROM PANTHER NINE

Hegele Tosses Good Ball As Clark Team Advances In Second Half.

The Panthers were unmercifully eliminated from the second half recreation ball picture by the Bulldogs Thursday evening, the latter team trouncing them by a 14-2 score. Failure of the Panthers to hit the old apple and faulty handling of the ball in infield and outfield accounted for the large score.

It was the opinion of fans that the Panthers played their poorest game of the year and seemed to care but little whether or not they played.

Bill Hegele hurled fine ball, granting but four hits.

Bob Jones was touched safely for 17 hits and most of them were clean.

Bunk Radcliff led the barrage for the Bulldogs with four hits, including a triple and a double, and Don Brannon was next with three singles. Coleman, Charlie Davis, T. Thomas and Henry were the lucky Panthers to touch Hegele for one hit each.

Tonight the Fat and Slim men will tangle in what should be an interesting contest. It will be a benefit for Frank Davis, who suffered a broken left elbow in a similar fracas Monday. The game will start at 6:15 sharp.

Lineup and summary:

BULLDOGS—14	AB.	R.	H.	E.

RECORD-HOLDER

LOU GEHRIG, YANKEES' FIRST BASEMAN

GEHRIG PASSES SCOTT RECORD

Columbia Lou Continues Consecutive Game Streak At St. Louis.

ST. LOUIS, Aug. 15.—Lou Gehrig has a shiny silver trophy today to mark a new baseball endurance record which the New York Yankee first baseman established here by playing in his 1308th consecutive game.

Gehrig's record set aside that of Everett Scott, one-time Yankee short-stop, who had reeled off 1,307 consecutive appearances back in 1925. Lou began his endurance run June 1, 1925, and since then has made 1,696 hits in 4973 trips to the plate for a .340 batting average.

William Harridge of the American league witnessed Gehrig's record breaking performance yesterday.

The Yankees and the Browns meet again today.

ROTARY TO HAVE BOWLING TEAM

Rotarians are going in for bowling in a big way starting the first Thursday in September with four teams to start the program.

The team announced Thursday are Team No. 1 Nelson Sweeney, captain; T. C. Gilliland, George Gerhardt and Don H. Watt; Team No. 2 Fred Clark, captain, Charlie May, Earl W. Lutz and Ward Robinson; Team No. 3 E. S. Neuding, captain, Charles Gilmore, Dr. E. S. Shane and George P. Foreman; Team No. 4 John Ryan, captain, K. J. Herrmann, Meeker Terwilliger and Frank A. Lynch. Substitutes who will be available for any team are E. L. Daley and Glenn Nickerson.

Daily Drama

The hero—Rogers Hornsby, St. Louis manager. Hit a homer as pinch-hitter in the ninth, tying score, and paving way for Browns to defeat New York Yankees, 7 to 6.

The goat—Second Baseman Morrissey Cincy Reds. Jumped for a liner and missed, when he should have stood still and caught it, starting Giants on a five-run scoring spree that ended with New York victory, 7 to 2.

What we want to know is, if mosquitoes have such a wonderful homing instinct, why don't they go there?

Public Sale!

We, the undersigned executrices of the estate of Sol. D. Riegel, deceased, will offer for sale at Public Auction at his late residence, 408 E. Main St., Circleville, O., on

Saturday, the 19th day of August, 1933

the following named articles:

Living-room suite, rugs, library table, bookcase, victrola, a number of occasional chairs, floor and table lamps, a complete dining-room suite, ass't. china, kitchen range, cabinet, cooking utensils.

Two brass bedsteads, and furnishings complete, birds'-eye-maple bedroom suite, dressers, chiffoniers, roll-top desk and chair, small iron safe, and other household effects. The above goods are in good condition.

Assortment of carpenter and gardening tools, platform scales, 35 concrete posts, and numerous other items.

TERMS—CASH.

Sale to Commence at One O'clock P. M.

AMERICAN AGAIN CLAIMS RECORD

LONG BEACH, Cal., Aug. 15.—Flying upside down for two hours and 21 minutes, Milo Burcham of Long Beach today had recaptured the world's record for inverted flying from Lieut. Tito Falconi of Italy who said he would attempt sometime this month to regain the championship.

Falconi's record was 2 hours and 6 minutes, which battered Burcham's previous record of one hour 46 minutes.

SPRINGFIELD, Mass.—Bunnie, a two year old woodchuck is the pet of Mrs. Amelia Warren of this city. Bunnie, who bathes and eats bananas is treated as any other family would treat their cat or dog.

JOCKEYS INJURED AT FAYETTE FAIR

WASHINGTON C. H. Aug. 18.—A driver and two jockeys today were recovering from injuries suffered in two mix-ups on the rain-soaked Fayette-co fair race track here during yesterday's program.

Charles Swischewski of Hillsboro, driving Vera McKinney in a pacing race, suffered a fractured jaw when the horse collided with another, Royal Guy, with Earl Smith of this city driving. The accident occurred when Royal Guy stopped suddenly because of a broken hobble.

The two jockeys injured were Earl Smith and Joe Jones of Lancaster.

In the first running race, Unlucky, with Tiller up, slipped while leading the field and threw its driver to track. Tiller rolled to safety, but Carrure Gold, with Smith up, piled into Unlucky and both went down. Smith suffered several fractured ribs.

Mable B. ridden by Jones, then piled into the other two horses. Jones fell off and received a fractured leg. Sweet Tidings and Marie Dee were the only two starters to finish in the event.

LOCAL NRA SEEKS

Continued From Page One

The post office made an announcement, Friday, in answer to number of requests. It is from Interpretation No. 14 of the code which concerns owners of stores without employees and reads "Owners operating their own establishments without any employee may obtain the insignia of NRA by signing the agreement and certificate of compliance."

Expressions heard at various times that the president has power to enforce the provisions of the NRA are contradicted in the following paragraph which outlines the power transferred to him by Congress:

"President Roosevelt is given power to control and administer all business and industry in the public interest and also to govern production, prices, profits, competition, wages and the hours of labor."

POST OFFICE SEEKS VEHICLE FOR MAELS

Proposals will be received at the office of the Postmaster until Aug. 20, 1933, for the hire of a vehicle without driver on an hourly basis for use in collecting, delivering and relaying mail, during the quarter ending Dec. 31, 1933.

Number and type of vehicles required: One motor vehicle (truck or passenger car). Estimated hours of service per pay, week days (four.) Vehicle must be at our disposal at the postoffice from 8 a. m. until 5 p. m.

Sunday (none) holidays (none). Estimated hours of service per quarter three hundred.

The owner of the vehicle will be required to keep it in satisfactory condition at all times and to bear all necessary expense in connection with the operation and maintenance of same.

Blanks on which to submit proposals will be furnished an application to the postmaster.

ORVILLE TRONE, Acting Postmaster.

\$2,000 DOLL HOUSE

BATH HILL, Me.—A doll house that cost \$2,000 to build has been completed by Miss Mary Birchfield, a summer resident. It took Miss Birchfield 10 years to build the house, which has 16 rooms, and is completely furnished. The house also has miniature plumbing and electrical fixtures.

EXONERATE WOMAN IN "POISON" CASE

AKRON, Aug. 18.—Peggy O'Neil, the "Mystery Witness" in the bizarre Arkansas "poison picnic" which resulted in the death of Alvin Colley and three members of his family today stood exonerated of any connection with the criminal aspects of the case.

Picked up by city detectives and brought to police headquarters for questioning, Miss O'Neil voluntarily told police all she knew of the case and of her dealings with Mark H. Shank, prominent Akron attorney, who is accused of the crimes.

She denied emphatically that she had attempted to blackmail Shank, according to Detective Chief Fred Delis, as the attorney charged in his confession. She knew, she said, that Colley had burglarized the Wayne-co courthouse as the tool of Shank.

Shank promised Colley \$500 for the job she declared. And the attorney had paid only \$100 of it. When she visited the Colleys one

day and "found them destitute and starving," she said that she went to Shank and demanded that he pay the Colleys.

She did not "get a cent" for her action, she stated. Police expressed complete satisfaction with her story.

ELIZABETHTOWN, Pa.—Plead-

ing guilty to charges of shoplifting in local stores, Melvin Ryan, Robert Bretz and Harvey Vogel, whose ages range from 14 to 16, were "sentenced" by a justice of the peace to attend Sunday school regularly for one year.

OHIO STATE STAR IS BISHOP COACH

DELAWARE, Aug. 18.—Martin Varney, guard on Ohio State University's football team last fall, has been added to the coaching staff of Ohio Wesleyan University. He was announced today.

Varney, whose home is in Lima, will be assistant line coach.

NEWSPAPERS are an important factor in the progress of the world, supplying all of the news from at home and abroad to every interested person at a negligible cost. The service which they render has come to be taken more or less for granted, but there is one factor that is deserving of your attention and consideration.

The carrier boy who delivers your newspaper daily, regardless of weather or other interfering forces, is the principal link between the publisher and the reader. It is through his enterprise and industry that you are able to enjoy the convenient service that characterizes newspaper delivery.

This young man in most cases is not a newspaper employee. He is an independent young merchant, buying and paying for his papers

by the week and selling them on a weekly credit basis to his customers. His profits for the service that he renders are small, yet many of these boys, by thrifty management, are paying their way through school with their earnings and at the same time putting something away for the future.

Encourage your carrier boy in the thrifty habit which he is forming by paying him regularly for the service that he is rendering you.

GOVERNMENT SHOWS GREAT POWER IN WAR ON KIDNAPERS

Arrests Made In Abductions of 13

IN THE MARKET BASKET

NEW YORK, Aug. 18.—The federal government has made good in its declaration of war against kidnapers.

Since the Lindbergh baby kidnapping aroused the nation and brought government forces into action against the "slitback racket," there have been thirteen major abductions.

And arrests have been made in each of the thirteen cases, a survey disclosed today.

The government agents have worked behind the scenes quietly and efficiently, cooperating with local state authorities. In many cases, the part played by the federal sleuths was not made public.

The capture of Harvey Bailey and four others in Texas charged with the kidnapping of Charles F. Urschel, multi-millionaire Oklahoma oil man, marked the invasion of the southwestern "badlands" by an army of 100 federal agents.

ALSO IN MASSACRE

Bailey is also wanted in the machine gun massacre of four officers and a prisoner in Kansas City.

It is a war to the finish against kidnapers, according to Joseph E. Keenan, special assistant to Attorney General Homer Cummings.

When U. S. Senator Royal S. Copeland's subcommittee on racketeering reports its findings to congress, additional teeth will be put in the law for use against the kidnapper.

Professor Raymond Moley, assigned by President Roosevelt to survey the crime situation, will also have recommendations.

In the meantime, the "kidnappers squad" of the federal investigating forces, bulwarked by every available government resource, is doing a grand job.

The results obtained by federal agents in cooperation with police in thirteen major cases, since the Lindbergh kidnapping, follow:

Charles Urschel, Oklahoma City man; July 22, 1933; Harvey Bailey, escaped desperado and others arrested this week.

John J. O'Connell, Jr., son of upstate New York political leader; July 14, 1933; one man under arrest.

August Luer, Alton, Ill.; 78-year-old retired banker; July 10, 1933; four men and two women arrested.

John King Otley, banker, Atlanta, Ga.; July 5, 1933; one man awaiting trial.

John "Jake the Barber" Factor, Chicago; July 1, 1933; two suspects held; others hunted now by posse.

William Hamm, Jr., Milwaukee brewer; June 15, 1933; four men arrested.

Mary McElroy, daughter of city manager of Kansas City, Co.; May 27, 1933; one kidnapper sentenced to death; two others awaiting trial.

Peggy McMath, ten-year-old daughter of boatbuilder, Harwichport, Mass.; kidnapper sentenced to 25 years.

Charles Boettcher, Jr., Denver broker; Dec. 10, 1932; two sent to prison for life.

Ernest Schoening, bootlegger, Pleasantville, N. J.; Dec. 27, 1932; two policemen and three others sent to prison for five to twenty years.

Mr. and Mrs. Max Gecht, Chicago; Dec. 10, 1932; two sent to prison for life.

Jackie Russell, nine, son of Brooklyn broker; two sent to prison for four to 25 years.

Mr. and Mrs. E. Skeels, 65, Los Angeles; Feb. 6, 1933; former University of California coed and her sweetheart sentenced for the crime.

That is thirteen—a lucky number for society.

Community canning centers should be equipped with pressure cookers, if they are putting up any vegetables besides tomatoes, says the Bureau of Home Economics of the U. S. Department of Agriculture. This is one of the most important safeguards against spoilage of the canned product, with frequent loss of work and material that has gone into the gardens, as well as into the canning.

Equally important is the freshness of the fruits and vegetables. They should be canned the day they are picked. Still another safeguard is to use the hot-pack method of canning. And, finally, store the canned product in a cool dark place. The importance of the canning center's work, and the need of the people who will depend largely upon this food supply next winter, call for the utmost precaution at every step in the canning process, says the bureau.

These warnings, with other suggestions as to equipment of the center, the imperative need of expert supervision, and essential points in canning methods, are contained in a circular issued by the Bureau under the title "Community canning centers." The warnings are not new, but repetition now is timely, the bureau points out, because canning centers all over the country, in scores of cities and towns, are going full speed on their program of providing food for the needy next winter.

Substance gardens are yielding their crops. In many places men and women otherwise out of work are organized to do the canning. Private gardens are contributing their surplus, and thousands of cans of fruits and vegetables as they come along are being put away for distribution by relief agencies when the gardens have gone by.

Many of these canning centers have good equipment and expert supervision. Some of them have no expert supervision and little or no expert supervision. In all probability their success or failure will be determined by these two factors, more than by any others. For example, last year a well-equipped, well-supervised center, using a steam pressure cooker, put up 17,500 cans of nonacid vegetables, only 6 cans of which spoiled. Another center, with a pressure cooker, had a record of only 2 spoiled cans out of 5,000. On the other hand, still another center, canning with a pressure cooker, lost about 30 per cent of its canned corn.

These examples, says the Bureau of Home Economics, point significantly to the pressure cooker and the hot pack method as means of cutting down spoilage. These have long been recommended by the Bureau on the basis of its own canning experiments, with thousands of cans of food, over a long period of years.

Good supervision is necessary if the center is to meet successfully the other problems that arise. Of these perhaps the most troublesome, says Miss Miriam Birdseye, Extension Nutritionist for the Department of Agriculture, is to make sure the vegetables received for canning are fresh, and that they are delivered in time to be canned the same day. On a recent field trip Miss Birdseye learned of numerous cases of spoilage where lack of freshness was an important factor. Sometimes this problem arose through failure to schedule the workers, and sometimes through the generosity of the center's friends. Large donations of vegetables, sometimes reached the center so late in the afternoon that they were kept over

the following day, thus suffering deterioration in flavor.

The same problem comes with the use of market left-overs, which are sometimes solicited for the canning center. It is a mistake to suppose that food no longer good for table use can be rescued by canning. Nothing can restore the lost qualities of freshness.

The crucial stage in the canning process is the final heating, for sterilization of the food is packed in the containers. Tomatoes and fruits, because of their acidity, can be sterilized at boiling temperature, which can be obtained in the ordinary waterbath. But for all other vegetables—corn, snap beans, lima, peas, okra, and the others—and for meats, much higher temperatures are required to insure destruction of the organisms of spoilage, and only in a pressure cooker can those high temperatures be obtained. For corn, which is exceptionally difficult to can, the bureau suggests the alternative of drying, which is relatively easy to do. Many persons prefer dried corn to the home-canned product.

Detailed directions for canning vegetables and fruits, including a time table for processing and full instructions for the use of the pressure cooker, are contained in Farmers' Bulletin 1471-F, "Canning fruits and vegetables at home," which can be obtained with the bureau's circular on "Community canning centers." Directions for canning meats and poultry are also available on request to the bureau.

Direction—for Nonacid Vegetables

Process all these vegetables in the pressure canner. If no pressure canner is available, the bureau recommends that methods of preservation other than canning be used.

Snap Beans—Pick over carefully, string, wash thoroughly, and cut into pieces of desired size. Add enough boiling water to cover and boil for five minutes in an uncovered vessel. Pack in containers boiling hot, cover with the water in which boiled, and add 1 teaspoon of salt to each quart. Process immediately at 10 pounds pressure, or 240 F., in quart glass jars for 35 minutes, pint glass jars for 30 minutes, and No. 2 and No. 3 plain tin or C enameled tin cans for 30 minutes.

Corn—The garden varieties of corn are the best for canning. They should be gathered about 17 to 25 days after silking, the exact time depending upon variety and season. Shuck, silk, and clean carefully. Cut from cob without pre-cooking. Add half as much boiling water as corn by weight, heat to boiling, add 1 teaspoon of salt and 2 teaspoons of sugar to each quart, and fill boiling hot into containers. Process immediately at 15 pounds pressure, or 250 F., in quart glass jars for 80 minutes, pint glass jars for 75 minutes, and No. 2 C enameled tin cans for 70 minutes. Corn should not be canned in No. 3 tin cans because of the difficulty of heat penetration.

Lima Beans—Only young and tender lima beans should be canned. The older ones may be dried and used for soup. For the young, tender ones, use the same method as for peas, bring to boil in water to cover. Pack boiling hot into the

containers, and add 1 teaspoon of salt to each quart. Process the hot-packed beans immediately at 10 pounds pressure, or 240 F., in quart glass jars for 55 minutes, pint glass jars for 50 minutes, and No. 2 and No. 3 C enameled tin cans for 50 minutes.

Television Progresses

LONDON—Television is making steady progress in Britain. Latest statistics reveal that there are 14,000 people using television sets in this country, against hardly any six years ago.

Continued From Page One

with a bottle of burgundy and then be equal to a day's work.

The tragedy of Ferrara's life was that he never really agreed with Machado. He supported him because he had to. Toward the end Ferrara lost his money, went back to Havana as Secretary of State because he had no alternative. Now an exile, he may have to live in relative poverty—the Bacardi, the Burgundy, the hors d'oeuvres may be no more.

Grain Explosion

Members of the Agricultural Adjustment Administration whisper that the hearing on a code for the grain exchanges is going to be a red-hot affair.

The chief sensation is going to be the behind-the-scenes story of the recent disastrous grain market crash. One report reaching Washington is that two members of the business conduct committee of the Chicago Board of Trade were secret partners of Dr. E. A. Crawford, one-time Louisiana dentist, whose spectacular "long" holdings in grain deflated the market.

It was the business conduct committee which ordered the pegging of grain prices following the slump. At the time the Agricultural Adjustment Administration had no objection to such a curb, in fact favored it to prevent a panic. But now they have word that the real reason for pegging prices was to save Crawford's secret partners, who are members of the committee.

Had the market been allowed to run its course they might have been wiped out. Pegging permitted them to liquidate their holdings.

Merry-Go-Round

The U. S. Trade Commissioner in Berlin reports that the Nazi government has instituted severe slashes in pay of German movie stars. . . . The return of legal beer in this country has proven a great boon to Bavarian beer barrel factories. . . . Using Polish and Russian oak, which they import, they are working day and night to meet American demands for containers.

To date only three cotton growers, one Texan and two Georgians, have actually received checks from the government for signing acreage-reduction contracts. . . . It is estimated that it will be October before all the other 1,027,000 farmers will receive their compensation.

Negro Day at Fair

CHICAGO—More than 250,000 visitors from various parts of the world will attend Negro Day at a century of Progress on Aug. 12, the committee on arrangements announced. The program will be featured by a huge athletic carnival in Soldier Field.

Canning Suggestions for Community Canning Centers Offered By U. S. Bureau of Home Economics

Community canning centers should be equipped with pressure cookers, if they are putting up any vegetables besides tomatoes, says the Bureau of Home Economics of the U. S. Department of Agriculture. This is one of the most important safeguards against spoilage of the canned product, with frequent loss of work and material that has gone into the gardens, as well as into the canning.

Equally important is the freshness of the fruits and vegetables. They should be canned the day they are picked. Still another safeguard is to use the hot-pack method of canning. And, finally, store the canned product in a cool dark place. The importance of the canning center's work, and the need of the people who will depend largely upon this food supply next winter, call for the utmost precaution at every step in the canning process, says the bureau.

These warnings, with other suggestions as to equipment of the center, the imperative need of expert supervision, and essential points in canning methods, are contained in a circular issued by the Bureau under the title "Community canning centers." The warnings are not new, but repetition now is timely, the bureau points out, because canning centers all over the country, in scores of cities and towns, are going full speed on their program of providing food for the needy next winter.

Substance gardens are yielding their crops. In many places men and women otherwise out of work are organized to do the canning. Private gardens are contributing their surplus, and thousands of cans of fruits and vegetables as they come along are being put away for distribution by relief agencies when the gardens have gone by.

Many of these canning centers have good equipment and expert supervision. Some of them have no expert supervision and little or no expert supervision. In all probability their success or failure will be determined by these two factors, more than by any others. For example, last year a well-equipped, well-supervised center, using a steam pressure cooker, put up 17,500 cans of nonacid vegetables, only 6 cans of which spoiled. Another center, with a pressure cooker, had a record of only 2 spoiled cans out of 5,000. On the other hand, still another center, canning with a pressure cooker, lost about 30 per cent of its canned corn.

These examples, says the Bureau of Home Economics, point significantly to the pressure cooker and the hot pack method as means of cutting down spoilage. These have long been recommended by the Bureau on the basis of its own canning experiments, with thousands of cans of food, over a long period of years.

Good supervision is necessary if the center is to meet successfully the other problems that arise. Of these perhaps the most troublesome, says Miss Miriam Birdseye, Extension Nutritionist for the Department of Agriculture, is to make sure the vegetables received for canning are fresh, and that they are delivered in time to be canned the same day. On a recent field trip Miss Birdseye learned of numerous cases of spoilage where lack of freshness was an important factor. Sometimes this problem arose through failure to schedule the workers, and sometimes through the generosity of the center's friends. Canning Suggestions for Community Canning Centers Offered By U. S. Bureau of Home Economics

Community canning centers should be equipped with pressure cookers, if they are putting up any vegetables besides tomatoes, says the Bureau of Home Economics of the U. S. Department of Agriculture. This is one of the most important safeguards against spoilage of the canned product, with frequent loss of work and material that has gone into the gardens, as well as into the canning.

Equally important is the freshness of the fruits and vegetables. They should be canned the day they are picked. Still another safeguard is to use the hot-pack method of canning. And, finally, store the canned product in a cool dark place. The importance of the canning center's work, and the need of the people who will depend largely upon this food supply next winter, call for the utmost precaution at every step in the canning process, says the bureau.

These warnings, with other suggestions as to equipment of the center, the imperative need of expert supervision, and essential points in canning methods, are contained in a circular issued by the Bureau under the title "Community canning centers." The warnings are not new, but repetition now is timely, the bureau points out, because canning centers all over the country, in scores of cities and towns, are going full speed on their program of providing food for the needy next winter.

Substance gardens are yielding their crops. In many places men and women otherwise out of work are organized to do the canning. Private gardens are contributing their surplus, and thousands of cans of fruits and vegetables as they come along are being put away for distribution by relief agencies when the gardens have gone by.

Many of these canning centers have good equipment and expert supervision. Some of them have no expert supervision and little or no expert supervision. In all probability their success or failure will be determined by these two factors, more than by any others. For example, last year a well-equipped, well-supervised center, using a steam pressure cooker, put up 17,500 cans of nonacid vegetables, only 6 cans of which spoiled. Another center, with a pressure cooker, had a record of only 2 spoiled cans out of 5,000. On the other hand, still another center, canning with a pressure cooker, lost about 30 per cent of its canned corn.

These examples, says the Bureau of Home Economics, point significantly to the pressure cooker and the hot pack method as means of cutting down spoilage. These have long been recommended by the Bureau on the basis of its own canning experiments, with thousands of cans of food, over a long period of years.

Good supervision is necessary if the center is to meet successfully the other problems that arise. Of these perhaps the most troublesome, says Miss Miriam Birdseye, Extension Nutritionist for the Department of Agriculture, is to make sure the vegetables received for canning are fresh, and that they are delivered in time to be canned the same day. On a recent field trip Miss Birdseye learned of numerous cases of spoilage where lack of freshness was an important factor. Sometimes this problem arose through failure to schedule the workers, and sometimes through the generosity of the center's friends. Large donations of vegetables, sometimes reached the center so late in the afternoon that they were kept over

the following day, thus suffering deterioration in flavor.

The same problem comes with the use of market left-overs, which are sometimes solicited for the canning center. It is a mistake to suppose that food no longer good for table use can be rescued by canning. Nothing can restore the lost qualities of freshness.

The crucial stage in the canning process is the final heating, for sterilization of the food is packed in the containers. Tomatoes and fruits, because of their acidity, can be sterilized at boiling temperature, which can be obtained in the ordinary waterbath. But for all other vegetables—corn, snap beans, lima, peas, okra, and the others—and for meats, much higher temperatures are required to insure destruction of the organisms of spoilage, and only in a pressure cooker can those high temperatures be obtained. For corn, which is exceptionally difficult to can, the bureau suggests the alternative of drying, which is relatively easy to do. Many persons prefer dried corn to the home-canned product.

Detailed directions for canning vegetables and fruits, including a time table for processing and full instructions for the use of the pressure cooker, are contained in Farmers' Bulletin 1471-F, "Canning fruits and vegetables at home," which can be obtained with the bureau's circular on "Community canning centers." Directions for canning meats and poultry are also available on request to the bureau.

Direction—for Nonacid Vegetables

Process all these vegetables in the pressure canner. If no pressure canner is available, the bureau recommends that methods of preservation other than canning be used.

Snap Beans—Pick over carefully, string, wash thoroughly, and cut into pieces of desired size. Add enough boiling water to cover and boil for five minutes in an uncovered vessel. Pack in containers boiling hot, cover with the water in which boiled, and add 1 teaspoon of salt to each quart. Process immediately at 10 pounds pressure, or 240 F., in quart glass jars for 35 minutes, pint glass jars for 30 minutes, and No. 2 and No. 3 plain tin or C enameled tin cans for 30 minutes.

Corn—The garden varieties of corn are the best for canning. They should be gathered about 17 to 25 days after silking, the exact time depending upon variety and season. Shuck, silk, and clean carefully. Cut from cob without pre-cooking. Add half as much boiling water as corn by weight, heat to boiling, add 1 teaspoon of salt and 2 teaspoons of sugar to each quart, and fill boiling hot into containers. Process immediately at 15 pounds pressure, or 250 F., in quart glass jars for 80 minutes, pint glass jars for 75 minutes, and No. 2 C enameled tin cans for 70 minutes. Corn should not be canned in No. 3 tin cans because of the difficulty of heat penetration.

Lima Beans—Only young and tender lima beans should be canned. The older ones may be dried and used for soup. For the young, tender ones, use the same method as for peas, bring to boil in water to cover. Pack boiling hot into the

containers, and add 1 teaspoon of salt to each quart. Process the hot-packed beans immediately at 10 pounds pressure, or 240 F., in quart glass jars for 55 minutes, pint glass jars for 50 minutes, and No. 2 and No. 3 C enameled tin cans for 50 minutes.

with a bottle of burgundy and then be equal to a day's work.

The tragedy of Ferrara's life was that he never really agreed with Machado. He supported him because he had to. Toward the end Ferrara lost his money, went back to Havana as Secretary of State because he had no alternative. Now an exile, he may have to live in relative poverty—the Bacardi, the Burgundy, the hors d'oeuvres may be no more.

Grain Explosion

Members of the Agricultural Adjustment Administration whisper that the hearing on a code for the grain exchanges is going to be a red-hot affair.

The chief sensation is going to be the behind-the-scenes story of the recent disastrous grain market crash. One report reaching Washington is that two members of the business conduct committee of the Chicago Board of Trade were secret partners of Dr. E. A. Crawford, one-time Louisiana dentist, whose spectacular "long" holdings in grain deflated the market.

It was the business conduct committee which ordered the pegging of grain prices following the slump. At the time the Agricultural Adjustment Administration had

Home, Sweet Home

THE career of John Howard Payne, author of "Home, Sweet Home," presents, strangely enough, one of the first instances of the American expatriate who seeks foreign shores as a fitting environment for artistic creation. Many visitors to the cottage in East Hampton, Long Island, where Payne lived in childhood, may have thought of him as a rustic poet, who never cared to wander from this most celebrated fireside. As a matter of fact, Payne was a New York city man born and bred; a highly sophisticated fellow, who at 18 made his debut at the Park theatre, shortly afterward leaving for foreign parts where he lived much of his life in European capitals. Even his last resting place is far from the East Hampton churchyard near "Home, Sweet Home." St. George's Cemetery in Tunis received his mortal remains.

The first publication of Payne's poems was in London, where he was editor of a periodical called the Opera Glass and a playwright and producer of plays. Like Payne's reputation, "Home, Sweet Home" itself was London made. It appeared in his opera "Clari, or the Maid of Milan," produced at Covent Garden in 1823. The publishers are supposed to have made 2,000 guineas by it within a year. What would the royalties amount to today if they had been payable to Payne's estate for these one hundred and ten years?

Most of Payne's youth was spent away from home, sweet home; he returned to the old world in middle age as a consul to Tunis after a ten-year visit to this country, because he could earn more money by writing or get more for his money abroad. The 10 year period at home included the depression of 1837. Was he spending a stake at home because the nostalgia expressed in his song finally got the better of him, or because exchange went against him? Or for both reasons, or neither? The subject is open to anybody who is perplexed by the problem of the American literary expatriate.

When a politician takes sides it is the inside.

The Inarticulate Many

PUBLIC- SPIRITED persons grow almost apoplectic when they think of the indifference of voters. It is indeed a riddle, this question of how the nation is to be governed if a majority of citizens refuses to exercise the right of franchise.

The situation is but slightly better in the case of industrial government. Policyholders in the great mutual life insurance companies, and even shareholders in many corporations of national scope and size, bother little with elections, proxies and like annoying matters. The average stockholder has little inclination to take part in the direction of the company.

Clearly enough, the individual voter and the small stockholder no longer feel that their suffrages are of sufficient importance to register in the large and complex affairs of today. Perhaps in time this viewpoint may change, but until then a greater responsibility falls upon elected and appointed officials. A corporation director who is elected by only a portion of the stockholders—the others not voting—is thereby more obligated to discharge his duties with a particularly keen sense of responsibility.

SHOES FROM FISH

"STOLEN LOVE"

by HAZEL LIVINGSTON

COPYRIGHT BY KING FEATURES SYNDICATE, INC.

WHAT HAS HAPPENED SO FAR.

Joan Hastings, seventeen, and beautiful, lives a secluded life with her two old maiden aunts in a rundown house. She falls in love with Bill Martin, a garage worker. Meanwhile, the aunts plan to send Joan away to school. Bill tells the girl that he's very poor and it may be years before he can think of marrying, but she vows she will wait for him. Joan is overjoyed when news arrives that she is to go away to school, and writes a note to Bill asking him to meet her. Through a series of unforeseen circumstances she is unable to keep the appointment, and later that night they meet in the rose garden. Overcome at the thought of parting, they ardently pledge their love for each other. Next day, Bill has another opportunity to see Joan when Evvie sends for a mechanic to repair her car.

NOW GO ON WITH THE STORY.

CHAPTER IX.

They walked on silently, still holding hands like children, and now they were almost at the hedge. Another moment, and they would have to part again.

"I'll be here at ten. If you're late I'll wait. Gerwin said I could borrow the roadster. He cracked some jokes about me and my girl. . . . Oh, Johnnie—Johnnie—"

"You're worrying!" she cried sharply. "Why, Bill? You shouldn't—we should be very happy. What's a year when we have each other—to wait for?"

"It's because—" He hung his head, and scuffed up the dirt with a nervous heel. "I'm so desperately afraid I'll lose you—"

He stopped suddenly. Someone was coming.

Joan scuttled for the hole in the hedge, like a big blue gingham rabbit, but before she ran she put her two hands on his shoulders for a fraction of a second, and kissed him swiftly—

"Goodbye!" she whispered. "Goodbye till tonight!" And Bill— you to remember all the days and nights that I'm gone—so far away—that I'll always love you—always—"

As he turned, half blinded by the sun and the crazy tears that started to his eyes, he felt rather than saw, that he knew the woman coming up the road.

When he was explaining the car-buretor trouble to Evvie Van Fleet a few moments later the vision of the red-faced woman toiling up the hill came wandering into his mind again.

"Why," he thought, "that must be Dolores— Dolores— but what the dickens did she want up here?"

His heart thumped painfully. . . . Dolores might have seen her diving into the hedge. Well, what of it? Nothing wrong in a girl going into her own yard through the hedge!

The last light was out in the old Van Fleet house.

In the small pink-papered room over the kitchen, Heeley slept in a sagging weary heap, the covers pulled over her neuralgic head. In the big front bedroom facing the hedge, Aunt Babe lay with all the windows closed. Through the crack in the adjoining door came the sound of Evvie's snores—heavy—regular—untiring.

Only Joan was awake. Still wearing the faded gingham she had worn all day, with Babe's pink shawl about her shoulders, she knelt in the window waiting for Bill.

It was still early—half an hour before he would come. The night was very quiet, quiet and peaceful, and somehow sad. "It is because I am going away," she thought.

Down on the lawn, Major, the iron deer, waited too, just as he always had. There was something pathetic in the droop of his rusty antlered head. "Poor old Major. . . . I wonder if he'll miss me? And the rose garden. . . ."

The thought of the rose garden made her heart beat crazily. She got up and tiptoed into the hall. Ten o'clock. Bill was late.

"How'll I ever stand it all that year without him?" she thought

miserably. "When just a few minutes seem like forever—"

The moonlight struggled palely through the trees. The garden was black in the shadows, white and cheery in the light. The leaves rustled, the small night noises were magnified a hundred-fold.

"Why doesn't he come? Oh Bill—don't be late!"

There was so much to say on this, their last night. They had such little time together, had just found each other, when it was time to part.

Cautiously she picked her way down the stairs, avoiding the creaky spots. She would wait in the garden, and the quiet. The roses were drenched in dew. Fat white moths with powdery wings fluttered around them stupidly. The romance of yesterday was gone, only the loneliness and the sadness were left.

When the dew had wet her uncovered hair, and the chill breeze from the bay had penetrated her light wrap she knew that she had been waiting a long time. Fear,

had forgotten that she was going away.

She looked at herself anxiously in the mirror, for she didn't want to frighten Bill's mother. That was why she had made herself neat, because she was going to Bill's house, to see his mother.

The house was still asleep when she started but old Captain Horner was up, working on a boat when she got down to the hollow.

He looked very ruddy and happy, whistling as he worked. Quite as if this were a regular day, and not the end of the world.

"Hello, Johnnie—up before breakfast!" he shouted when he saw her coming.

She noticed that there was a little egg on his bushy white whiskers. Imagine noticing a thing like that, when you're on the way to see Bill's mother, and Bill dead. . . .

"Is there anything the matter?" he called anxiously. "Your Aunt Babe ain't taken bad again, is she?"

"No, I don't think so," she said politely, and went on toward the hollow, toward the ramshackle cottages.

She stopped a minute outside of the house. For the first time she realized fully what she was doing. She was coming to strange people who didn't know her, who had never even heard of her, to ask about Bill.

And suppose there was nothing to matter with Bill. Suppose he had forgotten. . . . Oh, but he couldn't have forgotten. . . . suppose he just didn't want to come. . . . suppose he was tired of her. . . . tired of her because. . . . because. . . .

"Oh, but not Bill! How could I even think of such a thing for a minute. . . . Oh, Bill, dearest. . . . Bill!" And she cried in her heart, to think she had doubted him, even for a minute.

The front door had a heavy, old-fashioned bell, the kind that you pull out and then release with a clang. Her hand touched it hesitantly. She couldn't do it, it would make too much noise. She rapped timidly and when no one answered, she tried again, a little louder. Then obeying an uncontrollable impulse, she walked down the three little steps, and around to the back, pushing the little gate aside, stooping under the sagging clothesline where a family was flapped grotesquely in the wind.

A gray-faced man with a swollen jaw, and little shiny eyes came to the door. His face was washed, and his suspenders were hanging. "I came—to ask about Bill Martin," she said in a small voice.

He continued to look at her, holding his jaw, with one hand. "Eunice!" he called at last. "Somebody's here."

A slatternly young woman with two round eyes and little girls peeking from her skirts came and stood beside him inside the screen door.

"What do you want?" she asked sharply.

Joan saw that she had been crying, her eyes were puffed and red. From inside the kitchen came the muffled sound of weeping, the low gasping sobs of one whose strength is nearly spent.

(To Be Continued Tomorrow)

ENTRIES FOR STATE'S FAIR ARE NEARING PAST SEASONS

COLUMBUS, Aug. 18.—Final coordination of the many departments of the Ohio State Fair of 1933 was affected at a meeting of members of the Ohio Board of Agriculture's just held at the office of Earl H. Hanefeld, state director of agriculture. Charles M. Beer, state fair manager, reported to those assembled that entries were close to surpassing fairs of the past in every particular.

"With 78 yearling entries of Belgians and Percherons, our draft horse exhibit will be the greatest in history," said Mr. Hanefeld. "And the same ratio runs through the many other departments. Both on paper and on the grounds we have the best fair in history, as the public will find out the week of Monday, August 28."

Members of the board of agriculture: E. H. Campbell, Salem, beef breeds and dairy cattle; George S. York, Greenville, dairy cattle, machinery and merchandise; Mrs. William J. Pontius, Canton, fine arts and women's building; Alva B. Caple, Toledo, draft horses; R. A. Forster, Worthington, horse show; L. E. Palmer, Pataskala, poultry, sheep departments; Jonas P. Pletsch, Columbus, speed program; A. H. Morton, Camden, swine department, and R. D. Williamson, Xenia.

Every connoisseur stand at the fair had been taken Mr. Beer reported Wednesday indicating that those in touch with large movements of the public expect splendid attendance. Exhibitor space, both under cover and its usual mark at this time, he said.

R. A. Forster, member of the board of agriculture in charge of the night horse show, reported entries greater and interest more marked than in recent years. He said saddle horses, breeding classes and roadsters will be judged by Prof. E. A. Trowbridge, Columbia, Mo., harness horses and hackney ponies by Sam L. Haynes, Columbus, and hunting and military classes by Lt. Col. Thomas J. Johnson, U. S. A., Remount Bureau, Lexington, Ky.

Robin Hood in Chicago

CHICAGO—Maybe the bandit profession has adopted a new code of ethics along with legitimate industry or maybe the two desperadoes who held up the Tower Finances Company here were only eccentric. Anyway, after taking \$282 from the firm, they distributed a part of the loot among several employees "because you are just poor working people."

PORTLAND Ore.—Motherly Portland women who feel for the boys away from home are making members of the C. C. C. a bunch of "cake-eaters." Under direction of Mrs. Q. C. English, weekly drives are made for contributions of home-made cakes to be sent to the camps. Books, magazines and games are also solicited.

I've Often Wondered

By PAT J. KIRWIN

WHO named that famous motor car, CHEVROLET?

I've always thought that Chevrolet was a French name and that it meant high power, knockless performance, 'er sumpin, but the other day I got the correct dope from the vice-president and auditor of the General Motors Corporation. That gentleman happens to be M. E. Coyle of Detroit, Michigan, and here is what he says:

"In 1909 W. C. Durant, then head of the General Motors Corporation, made arrangements with Mr. Louis Chevrolet, a race driver who had driven Buick cars in various races over the country, to experiment on the development of a six cylinder automobile. In 1911 this car was put in production under the trade name 'Chevrolet,' our present product being the outgrowth of this company and development."

Mr. Coyle concludes his remarks with: "Louis Chevrolet was never connected actively with the Chevrolet Motor Company and we are not familiar with what personal arrangements he had with W. C. Durant for this work."

NEW HOLLAND

Miss Ruby Farmer of Wilmington, spent the latter part of the week with her parents, Mr. and Mrs. John Farmer and sons.

Mr. and Mrs. G. G. Roberts and son, Gary, spent the week-end with the latter's parents, Mr. and Mrs. Carey Tarbill and son, Robert.

Mrs. Noel Wright and sons, of Columbus, Mrs. Marie Skinner and children and Mr. and Mrs. Ernest Tarbill of Atlanta and Mr. and Mrs. Ernell Wright and children, picnicked Sunday along Deercreek in Ross-co.

Mr. and Mrs. Thomas E. Noble and family spent Thursday with Mr. and Mrs. Charles D. Wright in Circleville.

Rev. and Mrs. H. O. Harbaugh are visiting this week at the World's Fair in Chicago.

Mr. and Mrs. Thomas E. Noble and family were visitors in Lynchburg, Saturday. Mr. Noble attended a teachers' meeting there.

Mr. and Mrs. John Blair of Dayton, spent the week-end with relatives here.

Mr. and Mrs. Fred Hickie, Mr. and Mrs. Marion Shasteen, Mrs. Mary Keller, and Mr. and Mrs. Charles Shasteen and family attended the Shasteen reunion at Perry's Park in Washington C. H., Sunday.

Mr. and Mrs. John B. May, Jr., and children, Alice, Thomas and John B. III, of Washington, D. C., are spending this week with Dr. and Mrs. John B. May and family.

Mr. and Mrs. Roy Stout of Columbus, were Sunday guests of Mr. and Mrs. Henry Armstrong.

Those spending Sunday with Mr. and Mrs. C. M. Clifton and son, Charles were: Mr. and Mrs. John B. May, Jr. and family, of Washington, D. C., Mrs. Pinta W. May of Washington C. H., Dan May of New Concord, Mr. and Mrs. Peter son of Austin, Dr. and Mrs. J. E. May and daughters, Elizabeth and Lena, and Mr. and Mrs. Percy May. Additional afternoon guests were Atty. and Mrs. Charles H. May of Circleville.

Laud Silver Compact

DENVER—Colorado mining men and brokers acclaimed the recent silver compact of nine silver producing and consuming nations as a great achievement of Senator Key Pittman of Nevada, destined to bring prosperity to the silver mining regions of the West. The compact was made at London after failure of the plan looked certain.

CLASS MEETING Class No. 9 of the Lutheran Sunday school met with Mrs. Jennie Warner Aug. 10 for their monthly meeting. There were 23 answered roll call and quite a few visitors were present. The collection amounted to \$2.20. After the business meeting they were

entertained with songs and stunts by Lou Goodman and Marcella Hoffman, accompanied on the piano by Miss Bernelle Goodman after which a delicious lunch was served by Mrs. Warner and Florence Creager which all sure did enjoy. They were then entertained with a program sponsored by Mrs. Grace Swank, assisted by members of the class. The program committee for September is Nora Valentine, Etta Doner and Lola Hoffman.

Mr. and Mrs. Simon Westenberg and son, of near Buckeye Lake, visited Mr. and Mrs. Jacob Brown and son, Saturday.

Rev. and Mrs. H. E. Sheeley left Monday for Chicago where they will visit the Century of Progress.

Mr. and Mrs. A. Wynkoop and children, Mary Kathryn and Jean, were the week-end guests of her parents, Mr. and Mrs. Bumgarner of near Lancaster.

Mr. and Mrs. Noel Byers and

The Rugged Individualist

STOUTSVILLE

Mrs. Peter Wynkoop is visiting her son, Coak Wynkoop and family in Columbus.

Clark Lovett and family, Homer Hartman and family and Miss Sarah Stebleton spent Sunday in Cincinnati.

Miss Alene Wolf of Springfield, who is visiting her mother, Mrs. Ada Seimer of Columbus, called on Mr. and Mrs. Ross Courtwright and family Friday afternoon. Mr. Courtwright who has been on the sick list accompanied her to Columbus to call on a specialist, his wife and son Darel, also accompanied them.

Mrs. Anna Stein and Mr. and Mrs. Charles Conrad and children were visitors at Orlentangy Park, Columbus, Sunday.

Dr. and Mrs. Roy Lutz and daughter, Betty Jane, Misses Ester and Darleta Fausnaugh and Miss Jeannette Frease left Sunday morning for Chicago where they will attend the Century of Progress exhibition.

The Shupe-Valentine and Conrad reunion will be held on Sunday, Aug. 27, at the Stoutsville camp ground.

Mr. and Mrs. Budd Kerns and daughter, of Lancaster, visited with Mr. and Mrs. Jacob Warner Thursday evening.

Class No. 9 of the Lutheran Sunday school have postponed their picnic at the Rock House from Aug. 17 until Aug. 24.

SEVEN ARE GUESTS AT PARTY IN COLUMBUS

Mrs. George Banning, of Columbus, entertained seven of her Circleville friends at a charming informal bridge party at her home Thursday afternoon.

The pleasant hours spent at the card tables were brought to a close when the hostess served delicious refreshments. Attractive favors in the game were presented Mrs. Donald Watt, Mrs. Harold Eveland and Mrs. Dwight Steele.

Guests enjoying the delightful afternoon were Mrs. Frank Kline Jr., Mrs. Dwight Steele, Mrs. Harold Eveland, Mrs. Barton Deming, Mrs. Donald Watt, this city, Mrs. Charles Blundell, of Akron, and Mrs. Paul Cromley of Ashville.

DINNER CELEBRATES 25TH WEDDING ANNIVERSARY

Mr. and Mrs. Charles Fellers, E. Main-st., were honor guests at a pleasant surprise dinner at their home, Wednesday evening, given in celebration of their twenty-fifth wedding anniversary.

An enjoyable evening was spent in cards following the dinner at seven o'clock. Friends who assembled for the celebration were Mr. and Mrs. Roy Groce, Mr. and Mrs. Curtis Burkhead, Miss Flora Palm, Miss Laura Mantle, Mr. and Mrs. William Lathouse, Misses Clara and Florence Lathouse, Miss Elizabeth Groce, James Groce and Mr. and Mrs. Charles Imler.

MISS WARNER IS HONORED AT PARTY

Miss Leola Warner, bride-elect of Oral Storts of Canal Winchester, was honor guest at a delightful party given by Mrs. Elliott Howard, of Columbus, Thursday evening at her home.

The happy hours were spent in sewing and were brought to a close when the hostess served a delicious lunch.

Guests were Mrs. George Dunn, of Columbus, Mrs. Harriett Ikeness, and the honor guest and members of her sewing club Miss Alma Glick, Miss Rose Good, Miss Elizabeth Drum and Mrs. Willis Green.

BIBLE CLASS HAS MEETING

The Shining Light Bible class of the United Brethren church held its monthly meeting Thursday evening at the Community house.

Mrs. Durbin Allen, president, was in charge of the business session which was followed by a short program under the chairmanship of Mrs. Iley Greeno. A piano solo was rendered by Lucile May and readings were given by Mrs. Jennie Steele and Mrs. Myrtle Trimmer.

A bake and apron sale was also conducted.

MRS. KIBLER IS HOSTESS TO CLUB

Members of her bridge club were guests of Mrs. Franklin Kibler at her home on N. Scioto-st., Thursday when she entertained at a pleasant evening of bridge.

Two tables were assembled with prizes awarded Mrs. Carl Wallace and Miss Marguerite Fohl, a guest, at the close of play. Topping refreshments were served late in the evening.

Next week the club will enjoy a covered-dish dinner at the home of Miss Esther Riegel of Ashville.

Mrs. Olive Stocklen and son, Mark, have returned home by plane after visiting several days in Kansas City, Mo.

Sister Mary Celestine and Sister Charles Marie, of Nazareth

Answers to Questions Asked By Farmers At Wheat Conference

By GUY GOWDY

Question: What if a farmer does not produce the amount of wheat he is supposed to?
Answer: The County Allotment Committee may excuse him if he has a legitimate reason.

Question: Is a farmer obliged to use fertilizer?
Answer: No. He cannot use more than used in 1928-1932.

Question: Is a farmer bound to sell wheat when raised or can he feed it to stock?
Answer: He can do anything he wants to with it.

Question: Is a farmer supposed

Academy, Nazareth, Ky., who have been visiting the former's parent's Mr. and Mrs. George Snider, S. Court-st., returned to Nazareth Friday.

Mr. and Mrs. T. D. Krinn and Mrs. J. C. Rader visited in Kendallville, Ind., Wednesday and attended the annual fair there.

Miss Grace Moodie, S. Court-st. has as her guest, Friday, Miss Isabelle Hughes of Columbus.

Martha Miller, E. Franklin-st., will return home Friday evening from a week's stay with her cousin, Katherine Alton of Lancaster.

Mrs. W. H. Nelson and daughters, Virginia and Betty and son, W. H. Jr., and Mrs. Elizabeth Henderson and daughter, Ruth and son, James, returned home Thursday after a week's stay at Buckeye Lake.

Dr. John Corbett, of Detroit, arrived Friday for a week-end visit with Mr. and Mrs. James I. Smith, S. Court-st. Mrs. Corbett and children, John, Teddie, David and Jean, who have been spending the past two weeks with her parents, will return with Dr. Corbett Sunday.

Miss Myrtle Barnes, Indianapolis, Ind., arrived Thursday for a visit of several weeks with her sister, Mrs. Rowe Gusman, Mingo-st.

Mr. and Mrs. William Downs, of Cincinnati, visited Thursday evening with Mr. and Mrs. George Fickard, E. Main-st., enroute to their home from Cleveland, where they were guests the past week of Mrs. Downs' sister, Mrs. Louise Crawford. Charles Crawford, of Cleveland, motored here with them for a visit with Lincoln and Otis Mader, N. Court-st. and Bobby Fickard, E. Main-st.

CHURCH SERVICE

Services at Christ's Lutheran church at Lick Run will be held at 2:30 o'clock Sunday afternoon, Aug. 20.

To Levy School Tax

SEATTLE—A special election will be called for Seattle Sept. 26 for a levy of five or six miles additional taxes to keep Seattle schools open during the year of 1933-34. The school board stated this was necessary in face of reduced revenues through the new 40-mile limit tax law on property, now in effect in Washington.

to fertilizer according to quality or quantity?
Answer: The contract does not say exactly, but it will probably be figured on soluble plantfood nutrients.

Question: Will a farmer get anything if he did not produce wheat in 1933?
Answer: He will not get a cash payment for the 1933 crop, but may receive payments in 1934 and 1935 if eligible.

Question: How long a period does the contract cover?
Answer: Two years.

Question: What restriction is placed on the land not seeded?
Answer: Must not grow any nationally produced agricultural crop for sale.

Question: Does it include hogling down corn?
Answer: It probably would if hogs are sold.

Question: Can you plant oats in the field and feed your horses?
Answer: That is probably correct however, that point is not officially decided.

Question: Can you put in rye and feed hogs?
Answer: Yes if hogs are not for sale.

Question: Can you raise rye and sell it to distilleries?
Answer: There is no regulation on that point.

Question: What if you raise soy beans and feed to your milk cows for home use and have more milk than you can consume at home?
Answer: It can be used to feed livestock for home consumption.

Question: Would you be allowed to put in oats and feed to your breeding stock?
Answer: Yes, that is probably correct.

Question: Suppose a farmer has two fields of corn one 30 A. and one 20 A. his minimum is 30 A. and his maximum is 40 A. can he sow the difference between the maximum and the minimum in anything he wants to?
Answer: Yes, just so he sets aside his reduced acres.

Question: What if a renter just came on the farm in 1933 does he get the allotment?
Answer: If he produces the crop harvested in 1933—yes.

Question: Suppose a farmer does not know his exact acreage what will happen?
Answer: He will have to convince the County Committee that his estimates are approximately

correct.
Question: Suppose the thresher has no record of your wheat?
Answer: Again the producer will have to submit proof to County Committee.

Question: What if you had not produced any wheat in 1930 and 1932 but did in 1933?
Answer: There is no basis for an allotment in this case consequently he could not receive no payments.

Question: What if a man fed part of his wheat before he threshed?
Answer: The production would be estimated on the amount fed.

Question: What if a cash renter raised wheat but moved to a farm where no wheat is raised?
Answer: He would receive his cash payment for 1933, but would not have an allotment in 1934 and 1935.

Question: What happens if a man has just purchased a farm?
Answer: The County Allotment Committee can give him an allotment based on production of farm purchased.

Question: What if a man's farm is in two counties what plan does he use?
Answer: He is a part of the county in which his house is located.

Question: In case the farm is sold does the contract go with the farm?

Answer: Yes.
Question: How much does it cost to keep these records in the county?
Answer: The Allotment Committee will decide that based upon the cost of going the work.

Question: What if the farmers do not sign up what will happen to the money allotted to this county?
Answer: It is retained by the government to be used for the benefit of farmers.

Question: What is the penalty if you do not live up to the contract?
Answer: The amount paid the farmer becomes a lien against his crops.

Question: What is the status of the farmer for the next three years if he does not sign up?
Answer: That is hard to tell. Those not joining will receive no

benefit payments.
Question: If a farmer does not sign up this year can he next?
Answer: No. after the closing date, which will be set by the Secretary of Agriculture, no one will be allowed to join until the two year period is over. After that all farmers may have an opportunity to form another wheat organization if it is needed.

Mole May Head "An American Scotland Yard" of Amalgamated Sleuths

WASHINGTON—Professor Moley, transferred to the Justice Department, is no longer a fish out of water. It looks as if some big things would come from his stay there, one of them being the organization of an American Scotland Yard, the other being the elimination of J. Edgar Hoover, Chief of the Bureau of Investigation.

The fates have been extremely kind to Super-Dick Hoover. Years of sleuthing against so-called radicals in Congress had heaped up untold resentment against him; and when Senator Tom Walsh was appointed Attorney General he said one of his first acts would be Hoover's demise. Walsh died just before he was to take office.

His successor, Homer S. Cummings, also selected a man to replace Hoover. He was Walter Foster, agent of the Bureau of Investigation in Pittsburgh.

Foster died... after he was selected.

Now Moley is talking of a complete re-organization of all government espionage work—which Hoover probably will be squeezed out of the picture.

It is not certain yet whether Moley wants less espionage. But he has noted the obvious fact that the government has several thousand checks lurking around corners all over the country, all working for different bureaus. And he wants to amalgamate them.

For instance the Bureau of investigation has 710 dicks; Post Office Inspection about 1,000; Internal Revenue 855; the Interior Department 200; the Prohibition Bureau more than 800; the Treasury 145.

Moley would put these all under one direction—a super Scotland Yard—probably for bigger and better government espionage. Perhaps this is the real reason Moley's telephone being tapped.

Strange Bird

General Johnson has a keen sense of humor, but this is one story his aides are keeping from him. They are just a little doubtful as to how he might take it.

The other day a woman marched briskly into the NRA offices and asked to see the Recovery Administrator. Asked the purpose of her call, she replied as follows:

"I just wanted to reassure him that although he bore a resemblance to Hoover, he acted like our great President Roosevelt."

Anarchist to Ambassador

When Orestes Ferrara, Macho's Secretary of State, jumped to a bullet-pierced airplane and escaped from a mob which tore a baggage to shreds, Cuba sent to exile one of the grandest adventurers in modern history.

Three decades before, the same Ferrara had landed in Cuba under exciting circumstances.

As an anarchist, he had fought to free Cuba from the clutches of the United States. Then he had come to New York to teach bomb-throwing to bank revolutionaries.

He joined a filibustering expedition to Cuba, twice failed to land, and finally succeeded, fought through the Spanish American war as a colonel, and emerged at age of 22 a full-fledged governor of a province.

From that date until he escaped last week, Ferrara was one of the most popular diplomats in the world. He was the only man in the Diplomatic Corps who could consume his own Bacardi cocktails, vodka and hors d'oeuvres, two platters of spaghetti.

LANCASTER POST OFFICE APPROVED

LANCASTER, Aug. 18.—The public works administration at Washington, today, had approved the \$76,500 post office project for this city. This was among the 29 building projects in 22 states which were approved.

RULING MAY HALT OHIO SUSPENSION OF BEER PERMITS

COLUMBUS, Aug. 18.—The Ohio liquor control commission is without legal right to suspend beer licenses, according to a ruling which had been handed down here today by Judge E. King in Franklin-co common pleas court.

The commission has the power only to revoke or rescind licenses, Judge King held.

Judge King's ruling was handed down in the case of Edith M. Madias of Mt. Vernon to enjoin the commission from suspending her beer license.

ENGINEERS TO COMPLETE SURVEY IN SIXTY DAYS

Contracting to complete their survey of the city's electrical and water needs within 60 days, Fostick and Hilmer, consulting engineers, were preparing to begin today. The contract was signed by O. E. Hilmer, member of the firm, by A. J. Lyle, service director, and by Miss Lillian Young, city auditor, who certified that \$2,350, the engineering firm's guarantee, is in the city treasury.

Appointment of Fostick and Hilmer was approved by city council Wednesday evening.

After the usual preliminaries which accompany any contract, the following items are listed in the agreement between the engineers and the city:

1. That the said Fostick and Hilmer, under direction of the city service director, shall devote their services in making a complete survey and careful study of the present public and private electric loads and rates and the present public and private water consumption and rates, and advise the city through its proper officials whether or not the present rates are just, and if not what reasonable electric and water rates would be.
2. That the said Fostick and Hilmer shall carefully and completely survey and determine whether or not a municipally owned electric generating plant and water works is feasible, and what the proper locations of such a plant would be.
3. That Fostick and Hilmer

shall completely survey the present electrical distributing system and water distribution system to determine whether any portions of these systems owned by the municipality could be used with a minimum of new electric and water distributing systems.

4. That Fostick and Hilmer shall prepare a block plan covering the electric generating and water works plant, showing the building and major equipment required, and prepare outlined plans in connection with the distributing system.

5. That Fostick and Hilmer shall furnish estimates covering construction costs and in addition set-up costs and approximate operating costs and indicate at what rates the municipality could supply electric current and water,

in the event the city elect to build a municipal plant or plants.

6. That Fostick and Hilmer shall present these various matters in a manner which will enable the city to intelligently deal with both the Southern Ohio Electric Co. and the Ohio Water Service Co., it being understood that either Mr. Fostick or Mr. Hilmer shall sit in, be present and advise with requested such services being limited to three major meetings, six meetings in all. That Fostick and Hilmer shall make such preliminary report on the two surveys, both water and light, within 60 days from the date of the contract.

7. The City of Circleville shall furnish Fostick and Hilmer with a map of the city and either furnish

or provide them access to a map showing the distribution system with pipe sizes, and shall further furnish them or provide them access to accurate records of the amount of water used by the consumers and the revenue going to the water company.

8. In consideration for the services performed by Fostick and Hilmer, engineers, the city shall pay \$2,350, payable as follows: \$1,500 upon completion of the preliminary studies and estimates, and upon the submission to the service director of plans in draft form; the balance shall be paid upon delivery of the complete report covering the complete study of both water and electricity, together with the final block plans and estimates of cost. Both of the last above named items shall be paid by the city auditor when

presented with proper vouchers approved by the service director, and the said director shall approve vouchers for the last named item of \$850 as the work progresses and he shall see fit.

It is further agreed that if the city so determines and requires, a further contract with the city to Fostick and Hilmer shall execute a further complete, accurate and detailed plans and specifications covering either the electric generating plant or the water works plant, or a combined electric generating and water works plant, as may be determined, together with accurate detailed plans and specifications for the distributing system, so as to afford contractors all necessary information for bidding and for the satisfactory performance of the necessary work for

the purposes above stated, and the superintendent of the construction work covered by the plans and specifications and inspect the materials used.

If required to perform additional work, Fostick and Hilmer shall receive and the city shall pay a sum equal to four per cent of the actual cost of the new installation when final plans and specifications are completed, and an additional two per cent to provide superintendence of the construction work and inspection of the materials used; making a total of six per cent.

It is further agreed by Fostick and Hilmer that of the sum of \$2,350 paid them under the contract, \$1,570 shall be deducted and set off as a credit on the same to be paid them on the subsequent contract in the event such contract is entered into.

DESPONDENT, AGED WOMAN IS SUICIDE

TRIO INJURED AS CAR TURNS OVER

Three persons suffered painful injuries about 11 p. m. Thursday when the automobile driven by A. C. Post, 2232 Valmer-ave, Columbus, turned over on the Scioto Trail, 100 feet south of the Twin Elms at South Bloomfield.

Mr. Post was driving north. He suffered severe leg lacerations and Mrs. Post received a fractured right ankle. Another woman, whose name was not learned, was cut and bruised.

All three persons were taken to White Cross hospital, Columbus, in the E. F. Schlegel ambulance, for treatment.

BUS, AUTO HIT, TWO INJURED

Members of Cuban All-Stars Baseball Team In Thursday Accident.

Fourteen members of the Cuban All-Stars baseball team of Tarrytown, N. Y., enroute to Columbus after playing at Oak Hill, escaped serious injury about 8 p. m. Thursday when the bus in which they were riding collided with a Chevrolet coupe on the Scioto Trail, about 100 yards across the Pickaway-Ross-co line in Ross-co, almost completely demolishing the bus.

James Thompson, 20, of Chicago, and Ramiro Ramirez, 22, of Flint, Michigan, were treated at Berger Hospital for cuts and bruises they suffered in the accident. They were the only occupants of the bus who required medical aid. Occupants of the Chevrolet, whose names were not learned, also escaped injury.

The accident is said to have occurred when the bus, coming north, and the Chevrolet going south, sideswiped. Both vehicles were in the ditch.

The baseball team travels throughout the country and plays games along the route. It had completed a game at Oak Hill, Jackson-co, and members of the team were enroute to Columbus to spend the night when the accident occurred.

The two injured men were brought to the hospital by a passing motorist. Members of the team abandoned the demolished bus and went to Columbus where they expected to complete their plans before leaving for another destination.

Mrs. Sara Hummel, 75, Found Hanging From Grape Arbor, Friday

SUFFERED STROKE

Bed Sheet Used to Take Life

Despondent over ill-health, Mrs. Susan Hummel, aged 75, committed suicide early Friday at the home of her daughter, Mrs. Edward Allen, near Whisler, Salt-creek-twp. Her body was found hanging from a grape arbor by Mr. Allen about 6 a. m.

Dr. C. E. Bowers, coroner, who was called to the Allen home by Squire Isaac Rossiter, a neighbor, returned the suicide verdict. Sheriff Charles Radcliff accompanied Dr. Bowers.

Mrs. Hummel, widow of the late John Hummel, and aunt by marriage of John D. Hummel, this city, suffered a paralytic stroke four weeks ago. Mr. and Mrs. Allen with whom she made her home feared she might attempt to take her life and locked her in the bedroom door at night. Mrs. Hummel about daylight Friday tore a hole in a screen and left the house.

STOOD ON BENCH

When her son-in-law found her body was dangling with her feet almost on the ground. She had stood on a bench under the arbor and tied bed sheeting around her neck and around a pole of the arbor. She had apparently kicked the bench from under her.

Dr. Bowers said she had been dead about three hours when he reached the home at 8 a. m.

Mrs. Hummel left a note asking that flowers be omitted from the funeral which she asked to be private.

Besides Mrs. Allen she is survived by another daughter, Mrs. Hazel Hosler of Tarlington Center, Guernsey-co.

The body was taken to the H. E. Deffenbaugh funeral home at Tarrington to be prepared for services which will probably be held Sunday at 9:30 a. m. with interment in Hallsville cemetery. Word from Mrs. Hosler was awaited before the definite hour for the funeral would be set.

HOLBY GUILTY

Electric Chair Faces Greenfield Slayer; Plea For New Trial Is Ready.

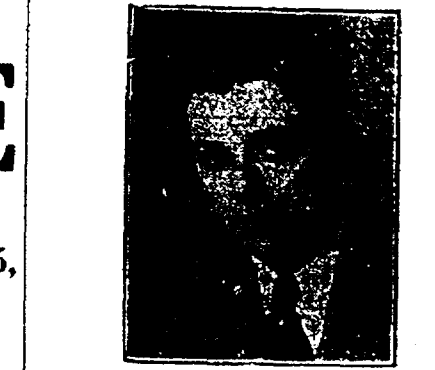

HILLSBORO, Aug. 18.—A motion for a new trial was filed Tuesday for Fred "Pink" Holby, who was found guilty by a jury yesterday of the murder of Tom Caniff, Greenfield night policeman, and sentenced to die in the electric chair at Ohio penitentiary, attorneys for the man announced today.

Holby was convicted by a jury which deliberated only 35 minutes yesterday. Failure of the jury to recommend mercy made the death penalty mandatory.

The trial was Holby's second. His previous trial ended in a hung jury.

Holby is the first man in the history of Highland-co to be found guilty of murder without a recommendation of mercy.

Named Deputy

GEORGE BARNES, youthful Democrat, who has been named deputy to the new clerk of courts, A. L. Dick Wilder.

A cut of Mr. Wilder was not available.

JOHNSON HITS FORD'S STAND

Talks As Code Hearing Opens; Regrets All Companies Not Included.

WASHINGTON, Aug. 18.—Henry Ford's failure to come in with the other major automobile companies under a code of fair competition was indirectly criticized by Hugh S. Johnson, National Recovery administrator, when he appeared unexpectedly today to open the public hearing on the automobile code.

"It is a matter of regret," Johnson said, "that the industrial code does not contain 100 per cent of the industry. No exceptions can be made whether the manufacture is large or small."

CLEVELAND, Aug. 18.—NRA pledges from employers topped the 100,000 mark today.

To an Akron beauty shop went the distinction of sending in the pledge No. 100,000. Owners of the beauty shop parlor were not advised of the glory that was theirs.

"We're too busy," an attendant of the Ohio NRA headquarters said. "You tell them."

"We draw to a close the president's recovery program," Johnson continued, "soon the Blue Eagle will be spreading over every business organization in this country including the great industry. It is highly appropriate that this industry be among the first to approve a code. It will be the first and most important beneficiary of the recovery because this nation, which has been educated to go on wheels has a huge desire to replace obsolete motor vehicles which it has not been able to do during the long period of depression."

Local NRA Seeks Consumer Insignia

Letters Are Unanswered With Cleveland Office Swamped; Power Is Outlined.

Workers in Circleville's NRA campaign were marking time today awaiting instructions as to procedure to place every resident of the city under the 'Blue Eagle'.

Durward Dowden, president of the Chamber of Commerce, has written a number of letters to the Cleveland office but, apparently swamped there, he has not received an answer to any of them. 'Blue Eagle' consumers' insignia is being sought for distribution to citizens of the city who promise to deal with merchants who exhibit and who are operating under the recovery administration plans.

Continued On Page Two

BOULAY NAMED

WASHINGTON, Aug. 18.—Appointment of L. A. Boulay of Columbus, to be state engineer for Ohio under the Public Works program was announced here today by Administrator Harold L. Ickes.

BARNES NAMED ASSISTANT TO COUNTY CLERK

Appointment of Deputy Made Shortly After Wilder is Selected

TO APPROVE BOND

'Dark Horse' Successful Over 32 Others

Arthur L. 'Dick' Wilder, W. Union-st., was preparing to take over the clerk's office today after his appointment Thursday afternoon by the county commissioners. He succeeds Ferd M. Pickens, who has resigned to become chief counsel for the Columbus branch of the Home Owners' Loan corporation.

Shortly after Mr. Wilder's appointment was announced, it was reported that George Barnes, son of City Councilman and Mrs. Tull S. Barnes, S. Court-st., had been named deputy. He will succeed Mrs. Ruth Pickens, wife of the former clerk.

As soon as Mr. Wilder's bond of \$10,000 is approved he will take over the reins of the office. Mrs. Pickens is remaining for a few days to show the new clerk and his deputy the 'ins and outs' of the office and its operation.

SERVE UNTIL 1935

The new clerk will serve the unexpired term of Mr. Pickens. He will be in office until Jan. 1, 1935.

Mr. Wilder's appointment came as a surprise to many persons. He was a 'dark horse' having never been mentioned as a candidate for the job. When the first applicants were announced Mr. Wilder's name was not among the names. He filed later.

One of the commissioners explained how Mr. Wilder was successful in his bid for the job. "I took the list of the 33 applicants through the city and parts of the country showing it to prominent people. I'll venture to say out of every 25 persons I talked to concerning the appointment 22 selected Mr. Wilder as the applicant best fitted for the office. We (the commissioners) did not act alone upon our own judgment but upon the wishes of a large number of influential residents of the city."

BARNES QUALIFIED

Mr. Barnes' appointment is pleasing to many. He is well fitted for the office graduating from the local high school and having attended Ohio State university for a short time. He was a candidate for the Democratic nomination for county recorder against Mary G. Morris and a large field of other candidates and finished second only to Mrs. Morris. He should prove a valuable assistant to Mr. Wilder.

MRS. ROOSEVELT IN COAL FIELDS

MORGANTOWN, W. Va., Aug. 18.—Traveling incognito in a battered old sedan and wearing plain clothes, Mrs. Franklin D. Roosevelt, wife of the President, was located here today—in the midst of a private tour of the West Virginia coal fields.

Mrs. Roosevelt arrived here Wednesday night, accompanied only by Miss Lorena Hickok, of Washington. She asked that her visit be kept a secret so that her tour of the mines might be carried out unhampered by publicity and crowds.

She was expected to leave here this morning. She was to drive back to Washington.

HOSPITAL NEWS

Mrs. Elizabeth Knowles, of Williamsport, who underwent a major operation at the hospital, was returned home Friday.

Jack Briscoe, 13, Earl Glenn, 9, and Paul Clark, 5, of the Children's Home, who underwent tonsillectomies at the hospital Thursday were discharged Friday.

LONE SURVIVOR IN POISONINGS

Three-year-old Clyde Colley, son of Alvin Colley, of Akron, O., is shown after surviving the poison plot in which his father, mother and two brothers died following a picnic dinner near Maumery, Ark. The boy, only member of his family still living, told police that Mark H. Shank, Akron lawyer,

"put something in our grape juice." Shank, pictured at Maumery after he was captured by bloodhounds while fleeing from the Colley automobile which crashed into a fence as the poison took effect, assertedly confessed to the plot, because, he said, Colley "knew too much" about him.

HOUSE READY TO VOTE TAX

Reduction of Beer Cap Tax Seen; Nine Millions Must Be Raised.

COLUMBUS, Aug. 18.—The Ohio House of Representatives—traveling at top speed—was scheduled to vote today on a "painless" tax program designed to raise \$9,000,000 for beer tax, to one cent, and levying taxes on soft drinks costing over 5 cents, amusement prices above 15 cents, home-brewing supplies, and cosmetics.

Although approved by the special tax committee in record time last night during the second day of the legislature's special session, the "painless" program faced serious threats of delay in the Senate, where Republicans may "sound out" their constituents.

Called "painless" by its sponsors because it extends present taxes and adds soft drink and home-brew supply taxes without making drastic revisions in the revenue-raising system, the program is covered in three bills which, as amended, provide the following taxes:

1. A one-cent tax on bottled beer and all other bottled beverages retailing for more than 5 cents per bottle; and an increase in the present \$1.05 tax on bulk beer to \$1.50.
2. A one-cent tax on every 10 cents, or fraction, of amusement admission fees of 10 cents or more; to expire July 1, 1936.
3. A tax of 10 cents a pound or gallon on malt, malt syrup or brewer's wort.
4. Re-enactment of the present 10 per cent cosmetic tax now scheduled to expire March 31, 1936, to July 1, 1936.

PRISON DELIVERY PLOT IS SUSPECTED

DENVER, Aug. 18.—Four rumors that led to predictions of police in placing armed guards about the city jail and getting over the jail window were not entirely unfounded, authorities revealed today.

U. S. PLANNING REDUCTION IN HOG TONNAGE

Gigantic Plan Outlined by Secretary Wallace at Chicago Today

POOR TO BE AIDED

Bonus of \$4 to Be Paid for Each Sow

CHICAGO, Aug. 18.—A gigantic plan to reduce hog tonnage during the 1933-34 marketing season by 1,800,000,000 pounds was announced in detail at a Century of Progress conference today by Secretary of Agriculture Wallace.

The plan involves government purchase of 1,000,000 sows, to farrow, together with 4,000,000 pigs ranging in weight from 25 up to 100 pounds.

They will be slaughtered under contract between the farm administration and the packing houses. A major part of the meat will be turned over to Henry L. Hopkins, federal relief administrator, for distribution to the poor.

A processing tax on live hogs and hog products, effective after Oct. 1, will be levied to raise the \$55,000,000 needed for the program.

FIGURE UNCERTAIN

A tax of considerably less than a cent a pound would accomplish this purpose but it is impossible at the moment to state the figure with any exactness," said Wallace.

"It is necessary the program be into effect at once. I hope we can announce its inauguration in a few days. By Oct. 1, the goal should be reached."

Wallace explained that a bonus of \$4 per head will be paid for the sows, in addition to the market price; while six to nine and a half cents per pound will be paid for the pigs. Prices for the latter will be graduated according to weight, with 25-pound hogs bringing the highest price per pound.

The hog reduction plan, purely an emergency measure, was formulated by farmers at a general meeting held in Des Moines, with all the hog growing states represented. Commission men and packers have agreed to cooperate in carrying it out.

REMOVE HUGE TOTAL

"The government purchases will remove from the fall and winter markets from 600,000,000 to 700,000,000 pounds of live pork," Wallace declared.

The total reduction in tonnage for the 1933-34 marketing season may amount to 1,800,000,000 pounds of hogs, live weight.

That total is about 16 per cent of the hog tonnage normally marketed. It past experience is a guide, a reduction of 15 or 16 per cent in market supplies should increase the hog prices for this season by 25 to 30 per cent.

METZGER ESTATE

Grandchildren, Mrs. Rector To Receive Bequests Under Will of Ross-Co Man.

Several Pickaway countians are given bequests in the last will and testament of the late Charles Metzger, North Union-twp., Ross-co, according to the document filed in probate court, Chillicothe.

Bequests include \$2,000 to a son, Edward Metzger; \$500 each to the grandsons, Otis, Forest, Harry and Rufus Short; \$1,000 to a granddaughter, Mary Short; \$5,000 each to the two sons, Will and Ira Metzger and \$6,000 to the daughter, Lizzie Rector, wife of Edward Rector, Saitcreek-twp.

The residue of the estate is to be shared in five equal parts by Edward, Ira and Will Metzger, Lizzie Rector and the children of Barbara Short.

ROTARIANS HEAR OF TROPICAL FISH

Telling of the many different species of tropical fish, their habits and other peculiarities, Mack Noggle, gave a very interesting talk before the Rotary Club Thursday noon.

Meeker Terwilliger gave a report of the district conference held at Zanesville Monday and Tuesday.

The meeting on Thursday, Aug. 24, will be at Rader's camp, near Piketon, with the members meeting at the Hotel Boggs at 5 p. m. to make the journey.

DOGS WIN TO 2 FROM PANTHER NINE

Tosses Good Ball As
Dark Team Advances In
Second Half.

The Panthers were unmercifully defeated from the second half of the game by the Bulldogs. Thursday evening, the latter team trouncing them by a 14-2 score. Failure of the Panthers to hit the old apple and faulty handling of the ball in the field and out-of-control for the large score. It was the opinion of fans that the Panthers played their poorest game of the year and seemed to care but little whether or not they played.

Bill Hegele hurled fine ball, granting but four hits. Bob Jones was touched safely for 17 hits and most of them were clean.

Frank Radcliff led the barrage for the Bulldogs with four hits, including a triple and a double, and Don Brannon was next with three bingles. Coleman, Charlie Davis, T. Thomas and Henry were the lucky Panthers to touch Hegele for one hit each.

Tonight the Fat and Slim men engaged in what should be an interesting contest. It will be a match for Frank Davis, who suffered a broken left elbow in a similar game Monday. The game will start at 8:15 sharp.

RECORD-HOLDER

LOU GEHRIG, YANKEES' FIRST BASEMAN

GEHRIG PASSES SCOTT RECORD

Columbia Lou Continues Consecutive Game Streak At St. Louis.

ST. LOUIS, Aug. 15.—Lou Gehrig had a shiny silver trophy today to mark a new baseball endurance record which the New York Yankee first baseman established here by playing in his 1308th consecutive game.

Gehrig's record set aside that of Everett Scott, one-time Yankee short-stop, who had reeled off 1,307 consecutive appearances back in 1925. Lou began his endurance run June 1, 1925, and since then, has made 1,696 hits in 4978 trips to the plate for a .340 batting average.

William Harridge of the American league witnessed Gehrig's record breaking performance yesterday.

The Yankees and the Browns meet again today.

ROTARY TO HAVE BOWLING TEAM

Rotarians are going in for bowling in a big way starting the first Thursday in September with four teams to start the program.

The team as announced Thursday are: Team No. 1 Nelson Swever, captain; T. C. Gilliland, George Gerhardt and Dor H. Watt. Team No. 2 Fred Clark, captain; Charles May, Earl W. Lutz and Ward Robinson; Team No. 3 E. S. Neuding, captain; Charles Gilmore, Dr. E. S. Shane and George P. Foreman; Team No. 4 Hermann Ryan, captain; K. J. Herrmann, Mosley Terwilliger and Frank A. Lynch. Substitutes who will be available for any team are E. L. Daley and Glenn Nickerson.

Daily Drama

The hero—Rogers Hornsby. St. Louis manager. Hit a homer as pinch-hitter in the ninth, tying score, and paving way for Browns to defeat New York Yankees, 7 to 6.

The goat—Second Baseman Morrissey. Cincy Reds. Jumped for a liner and missed, when he should have stood still and caught it, starting a Giant on a five-run scoring spree that ended with New York victory, 7 to 2.

What we want to know is, if mosquitoes have such a wonderful homing instinct, why don't they go there?

Public Sale!

We, the undersigned executrices of the estate of Sol. D. Riegel, deceased, will offer for sale at Public Auction at his late residence, 408 E. Main St., Circleville, O., on

**Saturday, the 19th
day of August, 1933**

the following named articles:

Living-room suite, rugs, library table, bookcase, victrola, a number of occasional chairs, floor and table lamps, a complete dining-room suite, ass't. china, kitchen range, cabinet, cooking utensils.

Two brass bedsteads, and furnishings complete, birds-eye-maple bedroom suite, dressers, chiffoniers, roll-top desk and chair, small iron safe, and other household effects. The above goods are in good condition.

Assortment of carpenter and gardening tools, platform scales, 35 concrete posts, and numerous other items.

TERMS—CASH.

AMERICAN AGAIN CLAIMS RECORD

LONG BEACH, Cal., Aug. 15.—Flying upside down for two hours and 21 minutes, Mile Burcham of Long Beach today had recaptured the world's record for inverted flying from Lieut. Tito Falconi of Italy who said he would attempt sometime this month to regain the championship.

Falconi's record was 2 hours and 9 minutes, which shattered Burcham's previous record of one hour 46 minutes.

SPRINGFIELD, Mass.—Bunnie, a two-year-old woodchuck, is the pet of Mrs. Amelia Warren of this city. Bunnie, who bathes and eats bananas, is treated as any other family would treat their cat or dog.

JOCKEYS INJURED AT FAYETTE FAIR

WASHINGTON C. H. Aug. 18.—A driver and two jockeys today were recovering from injuries suffered in two mix-ups on the rain-soaked Fayette-co fair race track here during yesterday's program.

Charles Swishelm of Hillsboro, driving Vera McKinney in a pacing race, suffered a fractured jaw when the horse collided with another Royal Guy, with Earl Smith of this city driving. The accident occurred when Royal Guy stopped suddenly because of a broken hobble.

The two jockeys injured were Earl Smith and Joe Jones of Lancaster. In the first running race, Unlucky, with Tiller up, slipped while leading the field and threw its driver to track. Tiller rolled to safety, but Curruce Gold, with Smith up, piled into Unlucky and both went down. Smith suffered several fractured ribs.

Mable B. ridden by Jones, then piled into the other two horses. Jones fell off and received a fractured leg. Sweet Tidings and Marie Dee were the only two starters to finish in the event.

LOCAL NRA SEEKS

Continued From Page One

The post office made an announcement, Friday, in answer to a number of requests. It is from Interpretation No. 14 of the code which concerns owners of stores without employees and reads "Owners operating their own establishments without any employee may obtain the insignia of NRA by signing the agreement and certificate of compliance."

Expressions heard at various times that the president has no power to enforce the provisions of the NRA are contradicted in the following paragraph which outlines the power transferred to him by Congress:

"President Roosevelt is given power to control and administer all business and industry in the public interest and also to govern production, prices, profits, competition, wages and the hours of labor."

POST OFFICE SEEKS VEHICLE FOR MAILS

Proposals will be received at the office of the Postmaster until Aug. 22, 1933, for the hire of a vehicle without driver on an hourly basis for use in collecting, delivering and relaying mail, during the quarter ending Dec. 31, 1933.

Number and type of vehicles required: One motor vehicle (truck passengers, car). Estimated hours of service per pay week days (four.) Vehicle must be at our disposal at the postoffice from 8 a. m. until 5 p. m.

Sunday (none) holidays (none). Estimated hours of service per quarter three hundred.

The owner of the vehicle will be required to keep it in satisfactory condition at all times and to bear all necessary expense in connection with the operation and maintenance of same.

Bids on which to submit proposals will be furnished an application to the postmaster.

ORVILLE TRONE, Acting Postmaster.

\$2,000 DOLL HOUSE

BATH HILL, Mass.—A doll house that cost \$2,000 to build has been completed by Miss Mary Birchfield a summer resident. It took Miss Birchfield 10 years to build the house, which has 10 rooms, and is completely furnished. The house also has miniature plumbing and electrical fixtures.

EXONERATE WOMAN IN "POISON" CASE

AKRON, Aug. 18.—Peggy O'Neil, the "Mystery Witness" in the bizarre Arkansas "prison picnic" which resulted in the death of Alvin Colley and three members of his family today stood exonerated of any connection with the criminal aspects of the case.

Picked up by city detectives and brought to police headquarters for questioning, Miss O'Neil voluntarily told police all she knew of the case and of her dealings with Mark H. Shank, prominent Akron attorney, who is accused of the crimes.

She denied emphatically that she had attempted to blackmail Shank, according to Detective Chief Fred Deisz, as the attorney charged in his confession. She knew, she said, that Colley had burglarized the Wayne-co courthouse as the "top" of Shank.

Shank promised Colley \$500 for the job she declared. And the attorney had paid only \$100 of it. When she visited the Colleys one day and "found them destitute and starving," she said that she went to Shank and demanded that he pay the Colleys.

She did not "get a cent" for her action, she stated. Police expressed complete satisfaction with her story.

ELIZABETHTOWN, Pa.—Plead-

ing guilty to charges of shoplifting in local stores, Melvin Ryan, Robert Bretz and Harvey Vogel, whose ages range from 14 to 16, were "sentenced" by a justice of the peace to attend Sunday school regularly for one year.

NEWSPAPERS are an important factor in the progress of the world, supplying all of the news from at home and abroad to every interested person at a negligible cost. The service which they render has come to be taken more or less for granted, but there is one factor that is deserving of your attention and consideration.

The carrier boy who delivers your newspaper daily, regardless of weather or other interfering forces, is the principal link between the publisher and the reader. It is through his enterprise and industry that you are able to enjoy the convenient service that characterizes newspaper delivery.

This young man in most cases is not a newspaper employee. He is an independent young merchant, buying and paying for his papers

GOVERNMENT SHOWS GREAT POWER IN WAR ON KIDNAPERS

Arrests Made In Abductions of 13

NEW YORK, Aug. 18.—The federal government has made good in its declaration of war against kidnapers.

Since the Lindbergh baby kidnapping aroused the nation and brought government forces into action against the "snatch racket," there have been thirteen major abductions.

And arrests have been made in each of the thirteen cases, a survey disclosed today.

The government agents have worked behind the scenes quietly and efficiently, cooperating with local or state authorities. In many cases, the part played by the federal sleuths was not made public. The capture of Harvey Bailey and four others in Texas charged with the kidnapping of Charles F. Urschel, multi-millionaire Oklahoma oil man, marked the invasion of the south-western "badlands" by an army of 100 federal agents.

ALSO IN MASSACRE

Bailey is also wanted in the machine gun massacre of four officers and a prisoner in Kansas City.

It is a war to the finish against kidnapers, according to Joseph H. Keenan, special assistant to Attorney General Homer Cummings.

When U. S. Senator Royal S. Copeland's subcommittee on racketeering reports its findings to congress, additional teeth will be put in the law for use against the kidnapper.

Professor Raymond Moley, assigned by President Roosevelt to survey the crime situation, will also have recommendations.

In the meantime, the "kidnappers squad" of the federal investigating forces, bolstered by every available government resource, is doing a grand job.

The results obtained by federal agents in cooperation with police in thirteen major cases, since the Lindbergh kidnapping, follow:

Charles Urschel, Oklahoma City oil man; July 22, 1933; Harvey Bailey, escaped desperado and others arrested this week.

John J. O'Connell, Jr., son of upstate New York political leader; July 14, 1933; one man under arrest.

August Luer, Alton, Ill.; 78-year-old retired banker; July 10,

1933; four men and two women arrested.

John King Otley, banker, Atlanta, Ga.; July 5, 1933; one man awaiting trial.

John "Jake the Barber" Factor, Chicago; July 1, 1933; two suspects held; others hunted now by posse.

William Hamm, Jr., Milwaukee brewer; June 15, 1933; four men arrested.

Mary McElroy, daughter of city manager of Kansas City, Co.; May 27, 1933; one kidnapper sentenced to death; two others awaiting trial.

Peggy McMath, ten-year-old daughter of boatbuilder, Harwichport, Mass.; kidnapper sentenced to 25 years.

Charles Boettcher, Jr., Denver broker; Dec. 10, 1932; two sent to prison for life.

Ernest Schoening, bootlegger, Pleasantville, N. J.; Dec. 27, 1932; two policemen and three others sent to prison for five to twenty years.

Mr. and Mrs. Max Gecht, Chicago; Dec. 10, 1932; two sent to prison for life.

Jackie Russell, nine, son of Brooklyn broker; two sent to prison for four to 25 years.

Mrs. Mary B. Skeels, 65, Los Angeles; Feb. 6, 1933; former University of California coed and her sweetheart sentenced for the crime.

That is thirteen—a lucky number for society.

The DAILY WASHINGTON MERRY-GO-ROUND

By **DREW PEARSON and ROBERT S. ALLEN**

Continued From Page One

with a bottle of burgundy and then be equal to a day's work.

The tragedy of Ferrara's life was that he never really agreed with Machado. He supported him because he had to. Toward the end Ferrara lost his money, went back to Havana as Secretary of State because he had no alternative. Now an exile, he may have to live in relative poverty—the Bacardi, the Burgundy, the hors d'oeuvres may be no more.

Grain Explosion

Members of the Agricultural Adjustment Administration whisper that the hearing on a code for the grain exchanges is going to be a red-hot affair.

The chief sensation is going to be the behind-the-scenes story of the recent disastrous grain market crash. One report reaching Washington is that two members of the business conduct committee of the Chicago Board of Trade were secret partners of Dr. E. A. Crawford, one-time Louisiana dentist, whose spectacular "long" holdings in grain deflated the market.

It was the business conduct committee which ordered the pegging of grain prices following the slump. At the time the Agricultural Adjustment Administration had no objection to such a curb, in fact favored it to prevent a panic. But now they have word that the real reason for pegging prices was to save Crawford's secret partners, who are members of the committee.

Had the committee been allowed to run its course they might have been wiped out. Pegging permitted them to liquidate their holdings.

Merry-Go-Round

The U. S. Trade Commissioner in Berlin reports that the Nazi government has instituted severe slashes in pay of German movie stars. . . . The return of legal beer in this country has proven a great boon to Bavarian beer barrel factories. . . . Using Polish and Russian oak, which they import, they are working day and night to meet American demands for containers.

Negro Day at Fair

CHICAGO—More than 250,000 visitors from various parts of the world will attend Negro Day at a Century of Progress on Aug. 12, the committee on arrangements announced. The program will be featured by a huge athletic carnival in Soldier Field.

IN THE MARKET BASKET

Canning Suggestions for Community Canning Centers Offered By U. S. Bureau of Home Economics

Community canning centers should be equipped with pressure cookers; if they are putting up any vegetables besides tomatoes, says the Bureau of Home Economics of the U. S. Department of Agriculture. This is one of the most important safeguards against spoilage of the canned product, with frequent loss of work and material that has gone into the gardens, as well as into the canning.

Equally important is the freshness of the fruits and vegetables. They should be canned the day they are picked. Still another safeguard is to use the hot-pack method of canning. And, finally, store the canned product in a cool dark place. The importance of the canning center's work, and the need of the people who will depend largely upon this food supply next winter, call for the utmost precaution at every step in the canning process, says the bureau.

These warnings, with other suggestions as to equipment of the center, the imperative need of expert supervision, and essential points in canning methods, are contained in a circular issued by the Bureau under the title "Community canning centers." The warnings are not new, but repetition now is timely, the bureau points out, because canning centers all over the country, in scores of cities and towns, are going full speed on their program of providing food for the needy next winter.

Subsistence gardens are yielding their crops. In many places men and women otherwise out of work are organized to do the canning. Private gardens are contributing their surplus, and thousands of cans of fruits and vegetables as they come along are being put away for distribution by relief agencies when the gardens have gone by.

Many of these canning centers have good equipment and expert supervision and little or no expert supervision. In all probability their success or failure will be determined by these two factors, more than by any others. For example, last year a well-equipped, well-supervised center, using a steam pressure cooker, put up 15,000 cans of nonacid vegetables, only 6 cans of which spoiled. Another center, with a pressure cooker, had a record of only 2 spoiled cans out of 5,000. On the other hand, still another center, canning with out a pressure cooker, lost about 30 per cent of its canned corn.

These examples, says the Bureau of Home Economics, point significantly to the pressure cooker and the hot pack method as means of cutting down spoilage. These have long been recommended by the Bureau on the basis of its own canning experiments, with thousands of cans of food, over a long period of years.

Good supervision is necessary if the center is to meet successfully the other problems that arise. Of these perhaps the most troublesome, says Miss Miriam Birdseye, Extension Nutritionist for the Department of Agriculture, is to make sure the vegetables received for canning are fresh, and that they are delivered in time to be canned the same day. On a recent field trip Miss Birdseye learned of numerous cases of spoilage where lack of freshness was an important factor. Sometimes this problem arose through failure to schedule the workers, and sometimes through the generosity of the center's friends. Large donations of vegetables, sometimes reached the center so late in the afternoon that they were kept over

the following day, thus suffering deterioration in flavor. The same problem comes with the use of market leftovers, which are sometimes solicited for the canning center. It is a mistake to suppose that food no longer good for table use can be rescued by canning. Nothing can restore the lost qualities of freshness.

The crucial stage in the canning process is the final heating, for sterilization after the food is packed in the containers. Tomatoes and fruits, because of their acidity, operate, which can be obtained in the ordinary water bath. But for all other vegetables—corn, snap beans, limas, peas, okra, and the others—and for meats, much higher temperatures are required to insure destruction of the organisms of spoilage, and only in a pressure cooker can those high temperatures be obtained. For corn, which is exceptionally difficult to can, the bureau suggests the alternate method of drying, which is relatively easy. Many persons prefer dried corn to the home-canned product.

Detailed directions for canning vegetables and fruits, including a time table for processing and full instructions for the use of the pressure cooker, are contained in Farmers' Bulletin 1471-F, "Canning fruits and vegetables at home," which can be obtained with the bureau's circular on "Community canning centers." Directions for canning meats and poultry are also available on request to the bureau.

Direction—for Nonacid Vegetables

Process all these vegetables in the pressure canner. If no pressure canner is available, the bureau recommends that methods of preservation other than canning be used.

Snap Beans—Pick over carefully, string, wash thoroughly, and cut into pieces of desired size. Add enough boiling water to cover and boil for five minutes in an uncovered vessel. Pack in containers boiling hot, cover with the water in which boiled, and add 1 teaspoon of salt to each quart. Process in hot-packed beans immediately at 10 pounds pressure, or 240 F., in quart glass jars for 35 minutes, pint glass jars for 30 minutes, and No. 2 and No. 3 plain tin or C enameled tin cans for 30 minutes.

Corn—The garden varieties of corn are the best for canning. They should be gathered about 17 to 25 days after silking, the exact time depending upon variety and season. Shuck, silk, and clean carefully. Cut from cob without bruising. Add half as much boiling water as corn by weight, heat to boiling, add 1 teaspoon of salt and 2 teaspoons of sugar to each quart, and fill boiling hot into containers. Process immediately at 15 pounds pressure, or 250 F., in quart glass jars for 80 minutes, pint glass jars for 75 minutes, and No. 2 C enameled tin cans for 70 minutes. Corn should not be canned in No. 3 tin cans because of the difficulty of heat penetration.

Lima Beans—Only young and tender lima beans should be canned. The older ones may be dried successfully. For the young, tender ones, use the same method as for peas, bring to boil in water to cover. Pack boiling hot into the

Held in Poisoning

Paul Meyer, 59, of Milwaukee, Wis., who is held on charges of murder and attempted murder, following the poisoning of ten persons, one of whom died. Police investigated and arrested Meyer after Mrs. Walter Kraus, her four children and four other persons had become ill after eating a cake left on Mrs. Kraus' doorstep.

containers, and add 1 teaspoon of salt to each quart. Process the hot-packed beans immediately at 10 pounds pressure, or 240 F., in quart glass jars for 55 minutes, pint glass jars for 50 minutes, and No. 2 and No. 3 C enameled tin cans for 50 minutes.

Television Progresses

LONDON—Television is making steady progress in Britain. Latest statistics reveal that there are 14,000 people using television sets in this country, against hardly any six years ago.

ATLANTA

Wallace Albright spent the week end with his aunt Mrs. Henry Wright, at Derby.

Mr. and Mrs. Everett Russ and daughter, Alice Arminta, of Athens, were guests Sunday with William Bennett and family.

Mr. and Mrs. Harold Dennis and son, Jimmie, motored to Sunbury Sunday and spent the day with Mr. and Mrs. Raymond White.

John and George Clements attended the air races at Columbus last Sunday.

Mr. and Mrs. William Tarbill entertained to dinner Sunday Mrs. Alice Conrad and children, Josephine and Allan, George Tarbill, Mr. and Mrs. Paul Peck and family.

Mr. and Mrs. Charles Schwemley and sons Robert and George Howard, of Petersburg, Va., were the first of the week for a visit with Mr. and Mrs. Amos Duvall and family.

Charles Stinson and family, of Columbus, spent with Mrs. Daisy Stinson.

Bertus Carleton Bennett left Tuesday morning for Chicago, to attend the Century of Progress exposition.

Relatives enjoying dinner with Mr. and Mrs. Pearl Bowdle and family Sunday were Mr. and Mrs. Elmer Ater and family, Mr. and Mrs. Russell Minner and children, Mrs. Alice Hughes, Mrs. Lena Terry, and Mr. and Mrs. James Willis.

Mr. and Mrs. Harold Slagle and daughter, Eleanor Lee, of Chillicothe, were guests Monday evening of McKinley Kiyk and family.

Mrs. C. P. Clements and children John, Mary and George were Washington C. H., visitors Tuesday.

Mrs. Clayton Newhouse, and children Chester and Carolyn, of Weston, W. Va., is spending some time with her sister, Mrs. Doris Hamman.

Mrs. Daisy Stinson, Mrs. Mary Gray and Mrs. Emma Jennings were guests at a W. F. M. S. meeting at the home of Mrs. John Dunlap Sr., last Thursday afternoon.

Mr. and Mrs. Ernest Tarbill, Mr. and Mrs. Ervil Wright, children Harold, Irene, and Dorothy, Mr. and Mrs. Marie Skinner, children, Jay, George, June Hope, and John, Mrs. Noel Wright and sons, Miller, Lloyd, and Roger, picnicked near Browns Chapel last Sunday.

Mr. and Mrs. Herbert Gray and Mr. and Mrs. R. T. Gray enjoyed a picnic supper together Friday evening in the R. T. lawn.

Mr. and Mrs. Philip Frederick, of Columbus were week-end guests with Royal Hamman and family.

Mr. and Mrs. William Bennett were Chillicothe visitors Saturday.

Russ Henry, Vendell Evans and Howard Duvall are camping this week near Chillicothe.

Lloyd Skinner and family of near Mt. Sterling were guests Sunday with William Skinner's, Addie Ruth and Jaunita accompanied the Skinners home for a visit.

Mrs. Belle Moore and daughter, Hazel, of Boston, Mass., spent part of last week with William Bennett and family.

ROBTOWN

After preaching services next Sunday morning a sacrificial offering will be taken to help pay a part of what we owe our minister. Rev. Hiles has been very patient and we would certainly like to be able to pay what we owe him. So we hope every one interested in Robtown will help just a little.

Mrs. Mollie Rodgers was taken to Berger hospital Monday. Mrs. Rodgers has been very poorly for some time.

Mrs. J. R. Hott spent the Wednesday of last week in Columbus with relatives.

A picnic dinner was given last

Sunday at the Community Center in honor of a cousin of the late Lindsey families, Tatum, of Idaho. Quite a number of friends and relatives enjoyed the picnic over old times and enjoyed the present time. Several friends met there, folks they had not seen in years.

Miss Bernice Rowe went to Chillicothe Sunday evening to meet her sister, Carolyn Rowe, who is in the care of their sister, Mrs. E. R. Brooks, who is very poorly suffering from an infected kidney. Little Ruth Brooks is with her grandparents, Mr. and Mrs. R. H. Rowe while her mother is so poorly.

Mrs. Walter Huston who has been real poorly for some time is now taking osteopathic treatment in Columbus.

CARRIES ALL-BRAN ON EVERY VOYAGE

Seaman Finds This Delicious Cereal Relieves Constipation

Here is an unsolicited letter from Mr. Darragh:

"I have been going to sea for the past fourteen years. Every trip, I underwent severe headaches, nervousness, and sleeplessness. Tried all sorts of remedies, and received only temporary relief.

"So hearing about Kellogg's ALL-BRAN thought I would get a box, which I did. That was six months ago, haven't been without it at home, and when I go to sea a box of Kellogg's ALL-BRAN is always with me."—George D. Darragh, 1914 32nd Avenue, Oakland, California.

Tests show ALL-BRAN contains two things for common constipation: "Bulk" to exercise the intestines; vitamin B to help tone the intestinal tract. ALL-BRAN also supplies iron for the blood.

The "bulk" in ALL-BRAN is much like that of lettuce. Inside the body, it forms a soft mass, which gently clears the intestines of wastes.

How much pleasanter this is than taking pills and drugs—so often harmful. Two tablespoonsfuls of ALL-BRAN daily will correct most types of constipation. If not relieved this way, see your doctor.

Serve as a cereal or use in cooking. Get the red-and-green package at your grocer's. Made by Kellogg in Battle Creek.

"STOLEN LOVE"

by HAZEL LIVINGSTON

COPYRIGHT BY KING FEATURES SYNDICATE, INC.

WHAT HAS HAPPENED SO FAR.

Joan Hastings, seventeen, and beautiful, lives a secluded life with her two old maiden aunts in a run-down house. She falls in love with Bill Martin, a garage worker. Meanwhile, the aunts plan to send Joan away to school. Bill tells the girl that he's very poor and it may be years before he can think of marrying, but she vows she will wait for him. Joan is overjoyed when news arrives that she is to go away to school, and writes a note to Bill asking him to meet her. Through a series of unforeseen circumstances she is unable to keep the appointment, and later that night she meets him in the rose garden. Overcome at the thought of parting, they ardently pledge their love for each other. Next day, Bill has another opportunity to see Joan when Evvie sends for a mechanic to repair her car.

NOW GO ON WITH THE STORY.

CHAPTER IX.

They walked on silently, still holding hands like children. And now they were almost at the hedge. Another moment, and they would have to part again.

"I'll be here at ten. If you're late I'll wait. Gerwin said I could borrow the roadster. He cracked some jokes about me and my girl. Oh, Johnnie—Johnnie—"

"You're worrying!" she cried sharply. "Why, Bill? You shouldn't—we should be very happy. What's a year when we have each other—to wait for?"

"It's because—" He hung his head, and scuffed up the dirt with his nervous heel. "I'm so desperately afraid I'll lose you—"

He stopped suddenly. Someone was coming.

Joan scuttled for the hole in the hedge, like a big blue gingham rabbit, but before she ran she put her two hands on his shoulders for a fraction of a second, and kissed him swiftly.

"Goodbye!" she whispered. "Goodbye till tonight! And Bill—I want you to remember all the days and days that I'm gone—so far away—that I'll always love you—"

As he turned, half blinded by the sun and the crazy tears that started to his eyes, he felt rather than saw, that he knew the woman coming up the road.

When he was explaining the car-bumper trouble to Evvie Van Fleet, a few moments later the vision of the red-faced woman toiling up the hill came wandering into his mind again.

"Why," he thought, "that must have been Dolores... but what the dickens do I suppose she's doing here?"

He heard Dolores might have seen her diving into the hedge. Well, what of it? Nothing wrong in a girl going into her own yard through the hedge!

The last light was out in the old Van Fleet house.

In the small pink-papered room over the kitchen, Healey slept in a sagging weary heap, the covers pulled over her neuralgic head. In the big front bedroom facing the hedge, Aunt Eva lay with all the windows closed. Through the crack in the adjoining door came the sound of Evvie's snores—heavy—regular—

—snoring.

Only Joan was awake. Still wearing the faded gingham she had worn all day, with Babe's pink shawl about her shoulders, she knelt in the window waiting for Bill.

It was still early—half an hour before he would come. The night was very quiet, quiet and peaceful, and somehow sad. "It is because I am going away," she thought.

Down on the lawn, Major, the iron deer, waited too, just as he always had. There was something pathetic in the droop of his rusty antlered head. "Poor old Major... I wonder if he'll miss me? And the rose garden..."

The thought of the rose garden made her heart beat crazily. She got up and tiptoed into the hall. Ten o'clock. Bill was late.

"How'll I ever stand it all that year without him?" she thought miserably. "When just a few minutes seem like forever—"

The moonlight struggled palely through the trees. The garden was black in the shadows, white and ghostly in the light. The leaves rustled, the small night noises were magnified a hundred-fold.

"Why doesn't he come? Oh Bill—don't be late!"

There was so much to say on this, their last night. They had such little time together, had just found each other, when it was time to part.

Cautiously she picked her way down the stairs, avoiding the creaky spots. She would wait in the garden, it would save time when he came.

It was so lonely there, in the dark and the quiet. The roses were drenched in dew. Fat white moths with powdery wings fluttered around them stidily. The romance of yesterday was gone, only the loneliness and the sadness was left.

When the dew had wet her uncovered hair, and the chill breeze from the bay had penetrated her light wrap she knew that she had been waiting a long time. Fear,

had forgotten that she was going away.

She looked at herself anxiously in the mirror, for she didn't want to frighten Bill's mother. That was why she had made herself neat, because she was going to Bill's house, to see his mother.

The house was still asleep when she started but old Captain Horner was up, working on a boat when she got down to the hollow.

He looked very ruddy and happy, whistling as he worked. Quite as if this were a regular day; and not the end of the world.

"Hello, Johnnie—up before breakfast!" he shouted when he saw her coming.

She noticed that there was a little egg on his bushy white whiskers. Imagine noticing a thing like that, when you're on the way to see Bill's mother, and Bill dead.

"Is there anything the matter?" he called anxiously. "Your Aunt Babe ain't taken bad again, is she?"

"No, I don't think so," she said politely, and went on toward the hollow, toward the ramshackle cottages.

She noticed that there was a little egg on his bushy white whiskers. Imagine noticing a thing like that, when you're on the way to see Bill's mother, and Bill dead.

"Is there anything the matter?" he called anxiously. "Your Aunt Babe ain't taken bad again, is she?"

I've Often Wondered

By PAT J. KIRWIN

WHO named that famous motor car, CHEVROLET?

I've always thought that Chevrolet was a French name and that it meant high power, knockless performance, 'er sumpin, but the other day I got the correct dope from the vice-president and auditor of the General Motors Corporation. That gentleman happens to be M. E. Coyle of Detroit, Michigan, and here is what he says:

"In 1909 W. C. Durant, then head of the General Motors Corporation, made arrangements with Mr. Louis Chevrolet, a race driver who had driven Buick cars in various races over the country, to experiment on the development of a six cylinder automobile. In 1911 this car was put in production under the trade name 'Chevrolet,' our present product being the outgrowth of this company and development."

Mr. Coyle concludes his remarks with: "Louis Chevrolet was never connected actively with the Chevrolet Motor Company and we are not familiar with what personal arrangements he had with W. C. Durant for this work."

NEW HOLLAND

Miss Ruby Farmer of Wilmington, spent the latter part of the week with her parents, Mr. and Mrs. John Farmer and sons.

Mr. and Mrs. G. G. Roberts and son Gary, spent the week-end with the latter's parents, Mr. and Mrs. Carey Tarbill and son, Robert.

MISS WARNER IS HONORED AT PARTY

Miss Leola Warner, bride-elect of Oral Storts of Canal Winchester, was honor guest at a delightful party given by Mrs. Elliott Howard, of Columbus, Thursday evening at her home.

The happy hours were spent in sewing and were brought to a close when the hostess served a delicious lunch.

Guests were Mrs. George Dunn, of Columbus, Mrs. Harriett Hennes, and the honor guest and members of her sewing club Miss Alma Glick, Miss Rose Good, Miss Elizabeth Drum and Mrs. Willis Green.

BIBLE CLASS HAS MEETING

The United Light Bible class of the Shining Brethren church held its monthly meeting Thursday evening at the Community house.

Mrs. Durbin Allen, president, was in charge of the business session which was followed by a short program under the chairmanship of Mrs. Roy Greeno. A piano solo was rendered by Lucile May and readings were given by Mrs. Jennie Steele and Mrs. Myrtle Trimmer.

A bake and apron sale was also conducted.

MRS. KIBLER IS HOSTESS TO CLUB

Members of her bridge club were guests of Mrs. Franklin Kibler at her home on N. Scioto-st., Thursday when she entertained at a pleasant evening of bridge.

Two tables were assembled with prizes awarded Mrs. Carl Wallace and Miss Marguerite Fohl, a guest, at the close of play. Tempting refreshments were served late in the evening.

Next week the club will enjoy a covered-dinner at the home of Miss Esther Riegel of Ashville.

Mrs. Olive Stoelken and son, Mark, have returned home by plane after visiting several days in Kansas City, Mo.

Answer: Yes.

Question: Suppose the thresher has no record of your wheat?

Answer: Again the producer will have to submit proof to County Committee.

Question: What if you had not produced any wheat in 1930 and 1932 but did in 1933?

Answer: There is no basis for an allotment in this case consequently he could not receive no payments.

Question: What if a man fed part of his wheat before he threshed?

Answer: The production would be estimated on the amount fed.

Question: What if a cash renter raised wheat but moves to a farm where no wheat is raised?

Answer: He would receive his cash payment for 1933 but would not have an allotment in 1934 and 1935.

Question: What happens if a man has just purchased a farm?

Answer: The County Allotment Committee can give him an allotment based on production of farm purchased.

Question: What if a man's farm is in two counties what plan does he use?

Answer: He is a part of the county in which his house is located.

Question: In case the farm is sold does the contract go with the farm?

Question: How much does it cost to keep these records in the county?

Answer: The Allotment Committee will decide that based upon the cost of going the work.

Question: What if the farmers do not sign up what will happen to the money allotted to this county?

Answer: It is retained by the government to be used for the benefit of farmers.

Question: What is the penalty if you do not live up to the contract?

Answer: The amount paid the farmer becomes a lien against his crops.

Question: What is the status of the farmer for the next three years if he does not sign up?

Answer: That is hard to tell. Those not joining will receive no benefit payments.

Question: If a farmer does not sign up this year can he next?

Answer: No. after the closing date, which will be set by the Secretary of Agriculture, no one will be allowed to join until the two year period is over. After that all farmers may have an opportunity to form another wheat organization if it is needed.

Question: What is the status of the farmer for the next three years if he does not sign up?

Answer: That is hard to tell. Those not joining will receive no benefit payments.

Question: What is the status of the farmer for the next three years if he does not sign up?

Answer: That is hard to tell. Those not joining will receive no benefit payments.

Question: What is the status of the farmer for the next three years if he does not sign up?

Answer: That is hard to tell. Those not joining will receive no benefit payments.

Question: What is the status of the farmer for the next three years if he does not sign up?

Answer: That is hard to tell. Those not joining will receive no benefit payments.
